## Mobility

You can power an Inogen One System by plugging it into a wall outlet, DC outlet in your car, or for hours at a time with each rechargeable battery. So go ahead, jump in the car to run errands, take a weekend trip to see family, or take that long trip you so desire. The Inogen One Systems may be used in a home, institution, vehicle and various mobile environments.

### A solution that can do it all!

The Inogen One System is a solution for stationary, portable, and travel use, day and night. Plus, it never has to be refilled.
