

Follow the steps below to use your VeloChampion Tubeless Tyre Repair Kit, allowing you to repair your tubeless tyre for any puncture or tear.

## STEP 1

Locate the puncture in your tyre and remove any debris.

## STEP 2

Insert the metal plug fork into the tyre to open up the punctured area.

### STEP 3

Select a plug and insert on to the plug fork.

### STEP 4

Insert the fork loaded with plug into the tyre.

### STEP 5

With the fork and plug inserted, rotate the fork clockwise to seal the plug in to your tyre.

### STEP 6

Remove the fork from your tyre and inflate to the required pressure.
