power up your adventures.

We offer eco-friendly energy solutions for your outdoor escapades, advocating for solar power as an ideal choice for off-grid journeys. At Oyastore, our mission is to provide affordable options that resonate with nature for New Zealanders. Our off-grid living costs begin at \$1 per watt-hour. Operating from a local warehouse in New Zealand, we ensure product delivery within 3-5 days. We are thrilled about offering sustainable essentials to Kiwis at a reasonable price in the future.
