Pro Tech Toolkit For All Apple Computers

The Pro Tech Toolkit is the one thing every DIYer, fixer, hacker, hobbyist, and professional needs to tackle any job.

Every tool in the Pro Tech Toolkit has been re-engineered to be better. From the 64 Bit Driver Kit to the MacLCDscreen Opening Picks, every tool is specially designed and selected to maximize your repair capabilities.

At the core of this kit is the 64 Bit Driver Kit, designed with extensive research into what fastener types are currently used in the consumer electronics industry and which legacy fasteners are still in demand by consumers. From the Apple Watch with its new tiny Tri-Point screws to vintage Nintendo game consoles with gamebit fasteners, the 64 bit kit covers them all with the highest quality CNC machined bits. Even the sturdy case was carefully engineered, having no hinges or latches to break, and features a sorting tray inside the magnetically attached lid.
