Our Customers, Vendors, Sub-contactors and other Business Partners;

TECI and its employees strictly comply with all applicable U.S. export laws and restrictions pertaining to the exporting of our products, commodities, and services. Because the products, commodities, or services being purchased, leased, or otherwise obtained from TECI are being/or will be exported and used outside the United States, TECI will now require receipt of a signed End Use/End User Certificate by an authorized representative from your organization.

This form is part of our adopted Export Compliance Management Program or EMCP. Export laws of the United States follow our products to the final destination and end user. TECI has, at a minimum, an obligation to use due diligence and reasonable care to obtain necessary information about the ultimate destination and end use/user of the products, commodities, and services TECI is exporting. It is TECI's policy to pre-screen all orders, use approved procedures to establish known customers/vendors, and to obtain end use and end user information about our exports.

The destination country you provided us has existing export restrictions. Due to this, we ask that you kindly review, sign, and return this End Use/End User certificate as soon as possible in order to prevent any future delay in processing your order.

We appreciate your cooperation with this time-sensitive requirement. If there are any concerns, questions, or requirements for additional information regarding any of TECI policies or requests, please contact us.

Best Regards,

10/5/2016
