

	<p>GoFusing.com Awareness Ribbon Fusible Glass Enamel Decal Awareness Ribbons Item # 33650 are all made of Enamel Paints in a Decal Form and are meant to be Kiln Fired as a permanent bond to glass or ceramics.</p>
--	---

Note: It is always best to pre-fire your glass or ceramics to its finished state and then perform a second firing to fire the decal at a lower temperature tack fuse in order to help retain the richness of the color, especially reds which are the most heat sensitive.

Use the documents Awareness Ribbon by Color Meaning by Month or the Awareness Ribbon Color Meaning by the associated Cause to help you determine what color decal to order.
