

from africa for the world

AfriTan

To whom it may concern

Please be advised, **VUKARI** acquired the following products in question from **EXELTAN HIDES AND SKINS CC** trading as **AFRITAN**:

We certify that the below mentioned processes and treatments have taken place:

- Nguni hide(s) (bovine)

Re: AfriTan Products

We hereby certify that our leather produced is by nature Bovine or non cites game and Chrome Tanned and is considered a sanitary item, and the hides processed are from FMD free animals. This serves to confirm that Game Skins and Nguni hides purchased from ourselves were tanned and treated with bactericide (Busan 2044/1220/72). Time period of this process were done more than 25days prior to shipment. These skins are free of any diseases and were tanned at **Afritan** recognized and authorized by South Africa in compliance with international standards and a registered exporter of hides and skin (Export no.21099498)

Chemicals used in the tanning process:

Busan 1021 (Buckman industries)
Formic acid (Protea chemicals)
Sulfuric acid (Protea chemicals)
Salt (Afgri)
Aluminium Sulphate (Protea chemicals)
Chrome (III) (Lanxess)
Eskatan GLS (Dystar)
Eskatan GLH (Dystar)

Many thanks
