

# London Inflammation Network

Monday 13<sup>th</sup> March 2017  
Charterhouse Square – London.

Organised by:  Barts and The London  
School of Medicine and Dentistry

## Program

2.00 - 2.30 **Registration - Derek Willoughby Lecture Theatre - Hall**

(Posters should be displayed during this time - Lister&Young Seminar room, 2<sup>nd</sup> floor John Vane Science Centre)

2.30 – 2.40 **Introduction Katuscia Bianchi**

**Session chair: Claudio Mauro**

2.40 – 3.15 **Jeff Rathmell** - Vanderbilt University  
*Fueling T cells in Inflammation and Cancer*

3.15 – 3.30 **Stefania Martin** - The Blizard Institute (QMUL)  
*Metabolic requirements for  $\gamma\delta$  T cell development*

3.30 – 3.45 **Steve Wagner** - The Institute of Cancer Research  
*An Inflammatory Gene Expression Signature Identifies MEK Inhibitor Resistance in KRAS-mutant Colorec*

3.45 – 4.15 Coffee break & poster session

**Session chair: Fran Balkwill**

4.15 – 4.30 **Annika Warnatsch** - The Francis Crick Institute  
*Reactive oxygen species localization programs inflammation to clear microbes of different size*

4.30 – 4.45 **Maria Gonzalez Nunez** - Queen Mary University of London  
*The role of the p110 $\delta$  PI3K signaling in NOD2-mediated gastro-intestinal immunity and inflammation*

4.45 – 5.30 **Ilaria Malanchi** - The Francis Crick Institute  
*The social life of cancer cells, but how well do we know their neighbours*

5.30 - 5.40 **Prize presentation - Mauro Perretti**

5.50 - 6.30 Drinks and networking - Poster Session  
Lister&Young Seminar room, 2<sup>nd</sup> floor John Vane Science Centre
