# WOOLSEY OUTDOOR PING PONG TABLE

Introducing the Woolsey Outdoor Ping Pong Table, our pong table that is suitable for the outdoors.

We use a new product made by Formica® for our top called Compact. Compact is entirely made out of paper, so it is extremely eco friendly. Formica® Compact has high strength, impact, water and humidity resistance and is more durable than other laminates thus reducing scratching and scuffs. This creates the perfect top suitable for an outdoor table, with the same play as a normal table. We can use any of the Compact range. Please note that as of now, these tops do not come with a centerline.

The base and net are both steel which has been metalized (sandblasted, sealed with zinc, and then powder coated) which offers supreme corrosion and rust protection for the outdoor environment. Of course, this table would be perfect for indoors too, or a hybrid table based on your needs and the season.

The table is able to transform from a dining or conference table, and in a matter of seconds can be ready for gameplay.

A regulation size steel net is easily mounted/unmounted via quick bolts to the table. The table comes with two custom-made walnut paddles and 3 star Japanese balls.

Dimensions: 108" x 60" x 30" tall (Regulation table size)

## BUILT TO PERFORM IN ALL ELEMENTS

We thought of everything when designing our outdoor ping pong tables. Snow, wind, rain, sun.

This can handle it and perform well.

Our tables comes with a waterproof, snow-proof, and windproof magnetized cover to lock in over the table and net when your table is not in use.

FORMICA  
COMPACT

Formica Compact is entirely made of paper, and the top is printed. It is rock solid. These are just 3 variations out of literally hundreds that are available. Each table is made to order, with lead times between 6-9 weeks.
