

ARTISAN HIGHLIGHT | CENICE

Cenice used to be the groundskeeper at Haiti Design Co-op, a small business that partnered with FMSC to promote empowerment and economic growth in the community. Eventually, the owners started teaching him how to create items from leather. Cenice started teaching other men, the co-op started a men's program for leather work and now he manages 15 people!

HANDMADE IN HAITI

Every purchase provides FMSC meals and builds sustainable communities.
