Greetings!

Scraplan is happy to announce its channel partnership with Natural Hege, the natural mineral water from the Himalayas. This partnership is aimed at promoting environmental sustainability and circular economy in the waste management and beverage sectors.

Scraplan is an online scrap disposal and collection service in Bangalore that buys all of your recyclables, including e-waste, paper, plastic, and metal, and is dedicated to reducing, reusing, and recycling garbage in order to achieve a zero-waste society.

Natural Hege is a brand of natural mineral water sourced directly from the underground aquifers of the Himalayas. The water is naturally balanced, untouched by humans, and crafted by nature. Natural Hege provides you with a taste of the finer things in life, enriched with all the goodness of nature.

By joining forces, Scraplan and Natural Hege aim to create a positive impact on the environment and society. Scraplan will collect and recycle the empty bottles of Natural Hege, ensuring they do not end up in landfills or oceans. Natural Hege will support Scraplan's initiatives to promote environmental awareness and education among consumers and communities. Scraplan and Natural Hege will collaborate to make the world a better place.

Sincerely,

For Clutter Cart Recycling Pvt. Ltd,

DIRECTOR
