

# J SCHATZ EARTH

New Work

J Schatz Earth is driven by love, a sense of wonder, and the desire to create objects and decor that are earthbound and primitive with evidence of the hand. Everything is designed by Jim and Peter, and brought to life with unique forms, textures, and finishes that are complex, rich, and bold. GOLD AMORPHOUS SCULPTURE

\$1,900

We hand sculpted this amorphous sculpture from white stoneware clay, fired it twice and then overglaze fired it to a lustrous gold finish.

LINKS  
\$5,000

Links is a slab-built wall sculpture of 38 intertwined stoneware links that descend to the floor. Red-brown clay is glazed on both sides. Thoroughly modern, strong, shiny, and earthbound.

Dimensions: 70" High x 36" Wide x 7" Deep JSCHATZEARTH.COM 7  
(Each individual Link is 8" High x 6" Wide x 1/2" Thick)

A close-up photograph of several ceramic buoys. The buoys are cylindrical with a ribbed texture and come in three colors: white, light blue, and yellow-green. They are tied together with white rope. The background is a plain, light-colored surface.

Inspired by our love of Provincetown, the Buoys wall installation renders the nautical form in stoneware. 36 buoy shapes, candy-like in their color and texture, are linked by a white nylon hanging rope. Looks right in a Cape Cod house as well as contemporary settings.

A close-up photograph of two ceramic buoys. On the left, a hand holds a white ceramic buoy with a rope knot on top. On the right, a blue ceramic buoy is visible. The background is a plain, light-colored wall.

Lines, angles, cutouts, and shadows converge to make a dynamic piece of art. Triangular tempered glass rests on a hand-built base that's folded and molded from glossy stoneware. A beautifully functional one of a kind work.
