POP BIRD HOUSE PARTS

Your Pop Bird House consists of 2 individual Parts.

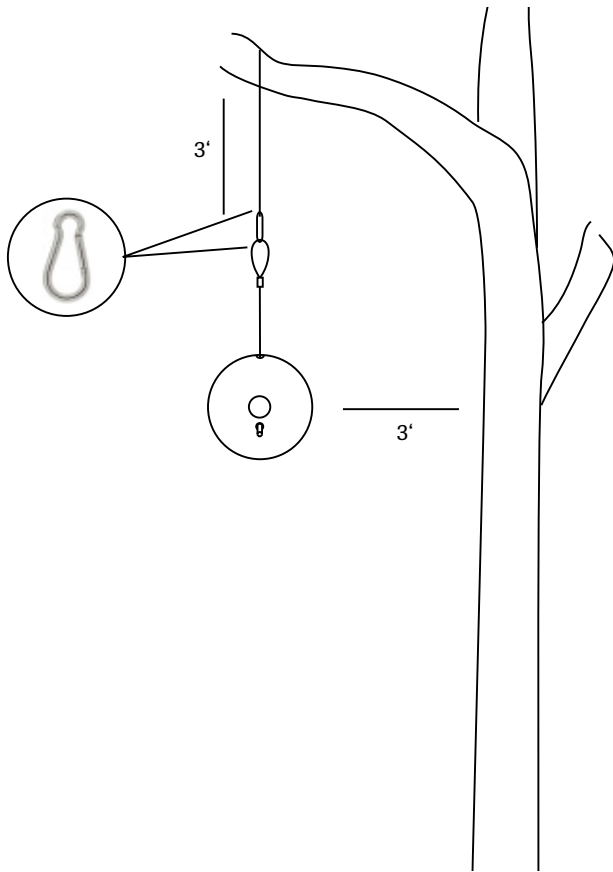

1 Stoneware House with Vinyl Coated Hanging
Wire sealed at the Pop Bird House entry with
a Rubber Grommet and Washer and Bottom
Drainage Hole

1 Aluminum Perch sealed with a
Clear Nylon Hole Protector

POP BIRD HOUSE HANGING GUIDE

Hang the Pop Bird House 3' from surrounding surfaces to prevent animals from disturbing the house. Most animals will not be able to jump onto the slippery surface of the Pop Bird House if hung at least 3' from surrounding surfaces. The Pop Bird House hanging wire is 24" and will need to be connected to an additional length of wire to hang 3' from surrounding surfaces. We recommend using a snap hook to attach the Pop Bird House to the additional length of wire. A snap hook allows the Pop Bird House to easily be removed for cleaning. Snap hooks can be found in most hardware stores.

CARE FOR THE POP BIRD HOUSE

Wipe clean stoneware and aluminum surfaces with a damp cloth. We recommend cleaning your bird house after each brood has left. Use a 10% bleach to water solution, scrub with a firm brush and rinse thoroughly. Allow to dry. If you live in an area that freezes please make sure the interior of the Pop Bird House remains dry during the critical times of year when it freezes and thaws. Damage to the house may occur during the freeze/thaw cycles if the interior is wet.
