

Impact Pegs

Your Impact Peg will mount right up to your bike. It comes with springs and cotter pins to mount the pegs. If you're struggling to get the spring to line up, you can clamp the spring together with vice grips (or a zip tie) to drop it into the peg cavity, then line the peg, spring, and mount up with a screw driver. From there, slide the peg pin through from the opposite side. Insert the cotter pin and enjoy!

Moto

- 2002-2022 Yamaha – Uses Fasst Co Peg Springs
- 2002-2015 Ktm – Uses Fasst Co Peg Springs
- 2016-2022 Ktm – Uses Fasst Co Peg Springs (Pictured below)
