

# GRP Enclosure

**Model: DPM3**

## Description

Our DPM3 Enclosure with Single Door provides weatherproof storage for equipment on the roadside or site use. Our GRP cabinet enclosures are suitable for the protection of various items of industrial equipment. They are commonly used by Gas, Water and Electricity providers and local authorities along with the mechanical services industry and many others. IP55 Compliant (without Louvre Vents) and made with Class 2 Fire Resistant Resin (30 Minute Resistance).

Our GRP housings are hand made in UK and manufactured from the highest quality GRP materials to withstand the rigours of the harshest weather conditions and are IP55 Compliant (without louvre vents).

External colour is British Racing Green (14-C-39) as standard, or Grey (BSA10A05). All enclosures have a tough weather resistant polyester gel coat outer and sloped roof for rainwater run off, reinforced with a GRP laminate.

Internal finish is a durable polyester gel coat finish in white with a 18mm ply back wall to fit equipment (around 30mm smaller than back wall). The GRP has an open floor with a 100-150mm flange which can be used to bolt down the enclosure.
