

# INSTALLATION SHEET

**PATENT PENDING**

Congratulations for purchasing the Edge Guardian Wake Edition!

**CAUTION: EDGE GUARDIAN IS NOT INTENDED TO BE USED AS A LIFE SAVING DEVICE. STRAPS AND BAG SHOULD BE KEPT AWAY FROM CHILDREN.**

Your Edge Guardian is a one size fits all board protector, all you need is a pair of scissors to customize it to fit your board. **PATENT PENDING**

To install Edge Guardian:

Figure 1 -- Start by attaching Edge Guardian to the long edge of the board between the bindings. Insert edge of board into slotted side of the Edge Guardian. This may require assistance until Edge Guardian expands and molds to your board.

Figure 2 -- Attach Edge Guardian the whole way around the outside edge of the board until the entire edge has been covered.

Figure 3 -- Use scissors to cut off excess material.

## INSTALLATION SHEET

Figure 4 -- To secure Edge Guardian wrap straps around board on top and bottom on the OUTSIDE of your binding and tighten until Edge Guardian is snug to board. BE SURE NOT TO OVER TIGHTEN.

Figure 5 -- Allow Edge Guardian 24 – 48 hours to mold to the shape of your board, this will allow it to be reinstalled much more quickly.
