

# MAKE YOUR OWN FLORAL BACKDROP

by Clever Poppy

It couldn't be easier to make a floral backdrop for your next celebration! Simply cut real or artificial flowers into small stems (the lighter in weight the better). Then tape them directly onto the wall with Scotch® Wall Safe Tape. This is perfect for behind the cake table, or as a photo backdrop.

To create a floating flower effect, you can tape flowers to fishing line with Scotch® Super-Hold Tape, then tape the lines of flowers to the wall with Scotch® Wall Safe Tape.
