

PRODUCT CHANGE NOTIFICATION

Notification date: February 19th, 2018
Reason for Change: Product Improvement / New Board Layout
Model(s) Affected: ALL USB-AI and USB-AIO Multi-function Analog I/O models
Old Revision: E
New Revision(s): F
Implementation Date: All New Orders beginning Q2 2018

ACCES I/O is introducing a backwards compatible new board layout with many enhancements and performance improvements.

In summary:

- Addition of new faster A/D "F" models with 1MHz sampling
- Reduced noise and crosstalk on analog inputs
- Now supports up to four DACs
- Factory option for pseudo-differential analog inputs
- Evaluation units are available now for existing customers to verify performance of the new card in their systems.

Please contact your Sales Engineer with any questions or concerns.

Regards,

Marty J. Wingett
