

# Estes Model Rocketry

Estes model rocketry is recommended for ages 10 years and up. Adult supervision is recommended for those under 12 years of age.

## Skill Levels

**RTF – Ready to fly.** No paint, glue, or modeling skills required. Comes assembled and is ready to launch in minutes.

**E2X** – No paint or special tools needed. Contains parts that are colored and easy to assemble. Glue the parts together as instructed, apply self-adhesive decals, and attach the recovery system. Assembly time: 1 hour.

**Skill Level 1** – Requires some painting, gluing, and sanding. Features laser-cut balsa wood fins, slotted body tubes, plastic nose cones, and self-adhesive decals. Includes step-by-step instructions. Assembly time: 4 or more hours.

**Skill Level 2** – Requires beginner skills in construction and finishing. Features laser-cut balsa wood or plastic fins, plastic nose cones, and unfinished body tubes. Assembly time: 1 day.

**Skill Level 3** – Requires moderate skills in construction and finishing. Features multiple laser-cut balsa wood fins and parts, unfinished body tubes, complex designs, and plastic nose cones. Assembly time: 2 days.

**Skill Level 4** – Requires a high degree of construction and finishing skills. Features multiple laser-cut balsa wood parts, vacuum-formed plastic detailing, unfinished body tubes, and water-soluble decals. Assembly time: 3 or more days.
