

Agreement of UAS Affiliation

SUMMARY

Some of the United States have set forth minimum security standards for governmental agency use of unmanned aerial systems (UAS) (for example, Chapter 2021-165, Laws of Florida). Such laws intend to "protect the confidentiality, integrity, and availability of data collected, transmitted, or stored by a drone, specifically with regard to the potential for subterfuge by foreign adversaries."

AGREEMENT

We, the MANUFACTURER (APEX DRONE (SHENZHEN) CO., LTD) and CLIENT (Pitsco Education, LLC), agree and affirm that we have no affiliation or ties in part or in whole to the government of China. No ownership or factories we source from are party affiliated or tied to the government of China in any way.

The production and distribution of materials, including but not limited to those of Pitsco's Drone Maker Kit and Echo Drone by Apex, are aligned to Tier One of the Florida Digital Service Rule No. 60GG-2.0075, "Unmanned Aerial Systems (UAS) Minimum Security Requirements"

(<https://www.flrules.org/Faw/FAWDocuments/FAWVOLUMEFOLDERS2022/48239/48239doc.pdf>):

A Drone that does not collect, transmit, or receive Data during flight. Examples of such Drones include Drones that navigate along pre-programmed waypoints and tethered Drones. A Drone used by a School exclusively as Instructional Technology shall be classified as Tier One Drone use.

Such production and distribution meet the requirements of subsection (4), Foreign Countries of Concern; and subsection (5), Standard Precautions, as follows:

- 4) Foreign Countries of Concern. A Governmental Agency may not purchase, acquire, or otherwise use a Drone or any related services or equipment produced by a manufacturer domiciled in, or produced by a manufacturer the Governmental Agency reasonably believes to be owned or controlled (in whole or in part) by, a Foreign Country of Concern.
- 5) Standard Precautions. A Drone or its software in use by a Governmental Agency:
 - (a) Shall not connect directly to the internet.
 - (b) Shall not directly or indirectly connect to the network of a Governmental Agency except that:
 1. A Drone or its software may connect directly to a computer or network that is isolated in a way that prevents access to the internet and any network where the Data of a Governmental Agency is held;
 2. A Drone or its software may, using removable memory, connect indirectly to a computer or network that is isolated in a way that prevents access to any network where the Data of a Governmental Agency is held; and
 3. Any transfer of Data between an isolated network described in sub-paragraphs 1. and 2. and a network where the Data of a Governmental Agency is held requires:
 - a. an initial scan using antivirus or anti-malware software for malicious code on the computer that connected directly or indirectly to the Drone;
 - b. the use of antivirus and anti-malware software during Data transfer; and
 - c. a scan of the destination of the transferred Data using antivirus or anti-malware software for malicious code.
 - (c) Shall not connect directly or indirectly with a telephone, tablet, or other mobile device issued by a Governmental Agency or that connects to a Governmental Agency network.
 - (d) Shall be used in compliance with all other applicable Data standards as required by law and the Governmental Agency's own policy and procedure.

Therefore, we agree and comply with all applicable provisions of Tier One of the Florida Digital Service Rule No. 60GG-2.0075.
