

APPLICATION GUIDE

StellaLife® VEGA® Oral Care Recovery Kit

3 • 3 • 3 StellaLife Program

- Start 3 DAYS before the surgery or procedure to increase therapeutic levels.
- Apply 3 TIMES per day, preferably after meals.
- Use all 3 PRODUCTS at the same time in the order outlined below.

Directions

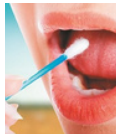

STEP 1 VEGA Oral Care Rinse
Shake well. Swish 3/4 tablespoon (7-10 ml) for 1 minute, spit out

STEP 2 VEGA® Oral Care Spray
Spray 4 times under the tongue.

STEP 3 VEGA® Oral Care Gel
Apply to the gum at the affected area or procedure site with a cotton swab.

Continue using all 3 products after the surgery or procedure. Refrain from drinking and eating for at least 20 minutes after application. Consult your healthcare professional for use in children under 6 years of age.*

Clinician Reviews

"The dramatic change we have seen has been very impressive."
— Dr. Michael A. Pikos, FL

"We have yet to uncover the limitations of this product."
— Dr. Jason Stoner, OH

"StellaLife was one of the first antiseptic solutions, compared to CHX, increase over tenfold cell viability, improve collagen, TGF."
— Dr. Rick Miron, FL

"StellaLife reduced ulcer duration from 10-14 days down to just 2 to 3 days after onset." — Dr. Scott Froum, NY

"...permanent relief from dry mouth. StellaLife is short of a miracle!" — Linda Miles, Oral Cancer Cause, FL

"...Collagen gene & protein increased with StellaLife from fibroblast and bone cells. These are the two main mechanisms of healing.... want your bone cells to grow on the implant surface."
— Dr. Georgios A Kotsakis, TX

"..StellaLife reduces postoperative complications, pain, swelling, suppresses bacterial growth while enhancing the healing & helps Lichen Planus, Oral Pemphigoid patients get through the day..."
— Dr. Jin. Y. Kim, CA

"...We have experienced a significant reduction in our patients' post-operative pain, discomfort, and swelling in conjunction with enhanced wound healing..."
— Dr. Jennifer Doobrow, AL StellaLife.com/reviews

StellaLife® DentaMedica™ Program

Uses

- Enhance antioxidant & vitamin levels*
- Support your immune system*
- Promote the body's healing process*

6 Week Supply

StellaLife® DentaMedica™ is a comprehensive dental recovery support program to promote the body's healing process before and after surgery. The 6-week vitamin and mineral dietary supplements supply provide essential nutritional supplements designed to enhance antioxidant and vitamin levels.*

NUTRITIONAL SUPPORT, DENTAL PROCEDURES*

- Supports healthy bone & soft tissue prior to and after dental procedure*
- Promotes new cell growth, tissue repair, and general immune health*
- Vitamins & minerals help deactivate free-radicals & reduce oxidative stress*
- Supports energy levels in the day and rest in the evening*
- Vitamin D and Vitamin K supports bone health*
- Vitamin A plus beta-carotene supports healthy cell growth and maintenance*
- Vitamin C assists healthy tissue growth and collagen formation*
- Vitamin B-complex helps moderate stress response during physical stress*
- Additional included supplements help maintaining healthy immune function, protein synthesis and collagen formation*

DIRECTIONS:

MORNING: Take 2 capsules with breakfast or lunch. EVENING: Take 2 capsules with dinner. Begin taking DentaMedica between 4 to 8 weeks prior to the anticipated procedure date and additionally for 2 to 4 weeks post-procedure. Your dentist will recommend either a 6 or 12-week program depending on the overall extent of your procedure, your current vitamin/ antioxidant levels, as well your general health. Capsules are better absorbed with food. When taken on an empty stomach, capsules may cause discomfort.*
