

# Geographic Tongue Patient Case Report Using StellaLife® VEGA® Oral Care Coconut Rinse

## Description

Twenty nine year old female patient with an autoimmune condition presented with Geographic Tongue lesions and sensitivity.

## Method

StellaLife VEGA Oral Care Coconut Rinse was dispensed and patient was instructed to rinse for 2 minutes 3 times per day.

## Conclusion

At the 2 week follow up appointment patient presented with no lesions and reported she had no more sensitivity. The patient continues to use the Coconut Rinse daily for maintenance.

Before: Patient has 3 orthodontic elastics on tongue for myofunctional therapy.

2-weeks: after VEGA Oral Care Coconut Rinse.
