

BLEED AREA: The extra .125" (.0625" on each side) beyond the final trim size. Background images or colors must extend to the edge of the black box.

TRIM: The finished size of the printed piece. (11"x8.5").

SAFE ZONE: All critical elements (text, images, logos, boxes, etc.) must be kept inside the blue box. Anything left outside the blue box may be cut off during trimming.

IMPORTANT NOTE! If your brochure is to be letter folded, then keep in mind that we trim off an extra 1/16" from the left panel on the front side. This is to allow the inside panel to fit inside when folded. Please allow extra room on the LEFT PANEL on the FRONT SIDE, as well as extra room on the RIGHT PANEL on the INSIDE of the brochure.

FINALLY-
WAXING DOESN'T HAVE TO
TO HURT!

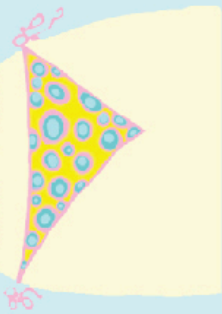

RELAX & WAX
