

VINYLUX™ Weekly Polish System Over Enhancements

1 HOUR

The **VINYLUX™** Weekly Polish System provides seven-day wear, chip-resistant color and gel-like shine. Features breathable formula infused with unique caring complex of Keratin, Jojoba Oil and Vitamin E for beautifully cared-for nails every time.

Application:

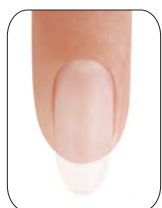

STEP 1:

Create the Enhancement

1. Create an enhancement of your choice following application guidelines, up to final finishing.

- a. For **Liquid & Powder** enhancements, smooth and refine the nail with a **1200-grit buffer like the Koala Buffer™** and thoroughly dust the nail with a disinfectable brush and a plastic-backed lint-free pad saturated with **99% Isopropyl Alcohol**.

- b. For **BRISA™ Gel** enhancements, seal with **BRISA™ Gloss**, and cure for one minute (**preset button 3**) in the **CND™ LED Lamp**.* Remove the top film with **99% Isopropyl Alcohol**.

STEP 2:

VINYLUX™ Weekly Polish Application

Enhance service and speed with the **CND 5 Point Polish Method** - an easy, systematic approach for polish perfection that will bring out the best in **VINYLUX™** Weekly Polish. (For more detailed information see the **CND 5 Point Polish Method Step-by-Step**.)

1. Shake the bottle vigorously to blend.
2. Apply one thin layer of **VINYLUX™** Weekly Polish Color Coat to the extension edge and nail surface.
3. Apply a second thin layer of Color Coat to the nail surface. The second layer will provide additional coverage and color, refining and perfecting the tiny free margins with each layer.

*If using the **CND™ UV Lamp**, cure for two minutes.

STEP 3:

VINYLUX™ Weekly Polish Top Coat Application

1. Shake to blend.

2. Apply one thin layer of **VINYLUX™** Weekly Polish Top Coat to the extension edge and nail surface.

3. After one minute, spray nails with **SOLARSPEED SPRAY™** Quick Dry Spray to speed up dry time.

Removal:

STEP 1:

VINYLUX™ Weekly Polish System Removal from Enhancements

1. Have the client wash their hands with soap and water and towel dry.

2. Massage **COOLBLUE™** Hand Cleanser into the client's hands to cleanse skin.

3. Saturate a plastic-backed, lint-free pad with **OFFLY FAST™** Moisturizing Remover. Place pad on the nail plate only and hold for five seconds.

4. Use firm pressure along with a circular motion to remove the color from the nail plate. Be sure to concentrate the pad on the nail and avoid the surrounding skin.
5. Rub the nail with a clean plastic-backed, lint-free pad saturated with **OFFLY FAST™** to remove any residue.
