CALLAWAY TOUR PROFESSIONAL

opti-series

opti-shield SUN PROTECTION

Opti-Shield technology creates a layer of protection from the sun's harmful rays.

opti-dri MOISTURE MANAGEMENT

Opti-Dri technology transfers moisture away from the body to aid in evaporation.

opti-stretch ENGINEERED ELASTIC FIT

Opti-Stretch fabrics feature interwoven layers of spandex to ensure maximum range of motion so the garment moves with the golf swing.

opti-vent ENGINEERED VENTILATION

Opti-Vent fabrics allow the garment to have maximum breathability.

opti-genic ANTI-MICROBIAL

An antimicrobial treatment keeps the garment fresh over time, reduces odor and helps maintain durability.

opti-repel WIND & WATER RESISTANT

Opti-Repel garments resist wind and water, creating a barrier of protection against inclement weather.

opti-therm WARMING TECHNOLOGY

Opti-Therm fabrics are designed to withstand the cold and provide a layer of thermal comfort.

Callaway is in the business of providing golfers with unfair advantages.

Not the kind that contravene good sportsmanship, but advantages that are 'unfair' because no one else thought of them before we did.

Like Opti-Dri, a Callaway apparel technology that transfers moisture away from the body and aids in evaporation. Or Opti-Stretch materials that maximize range of motion and facilitate unencumbered golf swings.

Our Opti-Series performance collection currently covers seven fabric innovations that benefit golfers and non-golfers alike. And you can rest assured that we're in the process of coming up with more.

Because we're totally obsessed with golf, to include the fashion component of the world's greatest sport.

Not surprisingly, Callaway's competitive spirit compels us to design some of the most fashionable apparel you'll ever see on the links, not to mention in the workplace and in social settings.

Some of our competitors grumble that combining eye-popping style and innovative performance-enhancing features is overkill.

But hey – who said life is fair?

SINGING FROM THE SAME SHEET MUSIC.

In your world, reputation is everything.

One substandard shipment or botched delivery deadline can easily torch a longstanding business relationship your company has come to rely on.

Perry Ellis International understands your world. Because it's really not that different from the universe we inhabit.

Few arenas are as brutal and unforgiving as the apparel industry, yet we prosper decade after decade thanks to our proven ability to supply high-quality designs and fabrics on ironclad delivery schedules.

We do this on a global scale, too, often in concert with some of the planet's largest corporations.

And if you'll give us the opportunity, we'll pamper you with exemplary performance.

Allowing you to focus on the million and one other pressing matters on your plate.

In-house embroidery service includes a retail fold in a custom-made poly bag and Callaway embellished tissue paper.

EMBROIDERY EXCELLENCE IN EVERY WAY.

Our continual quest to assess and fulfill our clients' needs prompted Perry Ellis International to acquire several state-of-the-art embroidery machines in 2014.

Purchased from embroidery equipment manufacturer SWF, our new stitching technology can sew 1,000 stitches a minute, has enough memory to hold 100 designs, is exceptionally precise and very fast.

Meaning that if you're dealing with a critical rush job, Perry Ellis International is well-positioned to deliver a quick, high-quality turnaround.

Topping things off, if you'll pardon the pun, Perry Ellis International's new embroidery machines do an excellent job of stitching logos onto caps.

Bottom line -- whether you're looking to embroider hats, polo shirts or jackets, Perry Ellis International has the experience and equipment to consistently craft impressive results.

Whether an order calls for tonal or contrasting embroidery, Perry Ellis International's team of experienced operators is ready to address your needs.

Perry Ellis International's new embroidery technology includes software capable of memorizing scores of designs, facilitating fast, high-quality turnarounds.

Use these illustrations and instructions to learn how to measure our garments and use the size charts for garment size information and fit.

MEN'S POLO SHIRTS: A traditional, roomy cut gives a generous fit for maximum ease of movement and supreme comfort. The longer sleeve and body lengths provide optimum coverage.

MEASUREMENT INSTRUCTIONS:

CHEST WIDTH: Measure 1" below armhole and around the fullest part of the chest.

BODY LENGTH: Front length from High Point Shoulder (HPS) to bottom seam.

LADIES POLO SHIRTS: Modern and updated silhouettes provide a streamlined approach to dressing. By tailoring trunk and sleeve proportions to the body, we created a universally flattering fit. Our solid textured poly wicking polo has a longer body length for additional coverage.

To order, please contact our Customer Service Department or your local representative. Some items can be purchased online.
