

MLEX 3PIN

The MLEX solution is a modular wiring system designed for electrical installations, offering exceptional control and flexibility. It adapts seamlessly to various installation needs across multiple construction types.

Innovative & Cost Effective

Efficient

Drastically reduce installation times and labour costs by up to 70%.

Reliable

Tested to meet and exceed Australian standards, ensuring long-term durability and safety.

Quality

MLEX is a high-quality modular wiring solution designed for ultimate versatility and control.

Sustainable

Our solutions minimize waste and environmental impact. Designed to be safer and reusable with no compromise in quality.
