

# **KETTP 2 level Two post parking lift customization options.**

**Applicable Model: 2T/2TD**

## **Mechanical Structure:**

### **1. Personalized Color:**

- Choose from a wide range of colors customizable according to RAL color numbers, allowing you to match your lift to your branding or personal taste, at no extra cost.

### **2. Adjustable Platform Width:**

- Tailor the platform width to fit your parking needs, whether you require more spacious parking or have limited land space available.

### **3. Flexible Control Arm:**

- Opt for a control arm on either the left or right post, depending on your convenience, at no additional charge.

### **4. Top-Mounted Control Arm:**

- Avoid headaches with a control arm mounted on top, providing easy access and operation.

### **5. Adjustable Lift Height:**

- Customize the lift height to accommodate different vehicle sizes or installation requirements, ensuring maximum versatility, at no extra cost.

### **6. Extendable Platform Length:**

- Extend the platform length by adding an oil drip tray.

### **7. Balance Chain Cover:**

- Add the balance chain cover for a better appearance and to prevent oil drips on lower vehicles.

## **Electric Control:**

### **1. Premium Branding:**

- Enjoy the reliability and quality of Schneider Electric for your electric control system, ensuring optimal performance and longevity.

### **2. Customizable Power Supply:**

- Tailor the power supply to meet local requirements, providing compatibility and safety in any location, at no extra cost.

### **3. Remote Control:**

- Conveniently operate your lift from a distance with the option for remote control, adding an extra layer of convenience and ease of use.

## **Hydraulic System:**

### **1. Bucher Hydraulic:**

- Upgrade the power unit to Bucher hydraulic for superior performance and reliability.

### **2. Safety Features:**

- Enhance safety with the option for an anti-explosion valve, ensuring reliable operation and protection against potential hazards.

### **3. Double Aston Seals:**

- Use double safety Aston seals for extended durability and long-term operation.
