

# DISPOSABLE GREEN®

ECOFRIENDLY FOOD PACKAGING  
THAT PRESERVE THE TASTE AND  
**PROTECT THE PLANET!**

# FROM NATURE BACK TO NATURE

At Disposable Green, we are your trusted provider of eco-friendly food packaging solutions. Our mission is to offer sustainable alternatives that minimise environmental impact without compromising on quality or functionality. We curate a diverse range of products made from renewable and compostable materials, ensuring that every item in our catalogue meets the highest standards of environmental responsibility. Our products are carefully crafted from natural materials and can be composted at home or disposed of in landfills, ensuring a truly sustainable solution that goes back to nature.

What sets us apart is our commitment to quality, affordability, and customer satisfaction. We source our products from trusted suppliers who share our vision of sustainability. We believe sustainability should be accessible to everyone, hence our competitive pricing allows you to make environmentally conscious choices without straining your budget. Our knowledgeable professionals are always ready to assist you in finding the right products for your specific needs. Whether you're a restaurant owner, caterer, or food vendor, we are here to guide you towards sustainable solutions that align with your business goals.

Join us in making a difference and embrace the greener side of food packaging with Disposable Green. Explore our catalogue and discover the wide range of eco-friendly options we offer. Together, let's create a sustainable future, one choice at a time. Thank you for choosing Disposable Green, where sustainability meets quality in every package.

---

Take a moment to explore our latest product list, filled with unique and innovative packaging options specifically designed for delivery and takeaway services, allowing you to make eco-friendly choices without compromising on quality or convenience.

At Disposable Green, we believe in the power of sustainability and the positive impact it can have on our planet. By choosing our products, you are actively participating in the circular economy and contributing to a greener future. Refresh your approach to food packaging and join us in creating a more sustainable world. Browse our latest product list today and discover the possibilities of eco-friendly packaging that not only meets your needs but also aligns with your values.

# ARECA PALM LEAF

Experience the true essence of nature with our Areca Palm Leaf tableware collection, where elegance meets sustainability. Crafted from fallen palm leaves, each piece is unique, biodegradable, and compostable. No trees are ever cut in the process, ensuring a sustainable choice for eco-conscious individuals and businesses. Our palm leaf tableware not only adds a touch of natural charm to any occasion but also biodegrades naturally in just 8-12 weeks, leaving behind no environmental footprint. Choose Disposable Green for your palm leaf needs and embrace the sustainable beauty of nature in every bite.

# BAGASSE

Discover the eco-friendly versatility of Disposable Green's Sugarcane Bagasse tableware and takeaway products. Made from the fibrous residue left after extracting juice from sugarcane, our Bagasse products provide a sustainable alternative to traditional plastic or foam. Whether you're hosting a catered event or offering takeaways, our sturdy and durable Bagasse tableware is perfect for all your food service needs.

As a byproduct of the sugar industry, Bagasse is renewable, compostable, and biodegradable. In as little as 60 days, Bagasse can be fully composted, leaving behind no toxic residue. This natural process transforms Bagasse into a nutrient-rich fertilizer, enriching the soil with nitrogen, potassium, phosphorus, and calcium. Rest assured that our Bagasse products retain their natural color and do not require bleaching agents.

Embrace the sustainable choice and enjoy the peace of mind that comes with using our compostable Bagasse tableware and takeaway products.

## NEXTGEN

By choosing our NEXTGEN paperboard range, you can enjoy the benefits of innovation, effectiveness, and affordability while reducing your environmental footprint. Our NEXTGEN range is a perfect blend of sustainability, style, and functionality. From our coffee cups that keep your beverages hot and your hands cool, to leak-proof and sturdy containers and boxes that ensure safe food transport, every product in this range is designed to enhance your experience.

But it's not just about the performance - our NEXTGEN products are made from sustainable materials. They are crafted with a proprietary **UNIQUE AQUEOUS LINING** that makes them 100% home compostable. Unlike traditional cups that end up in landfills for hundreds of years, our NEXTGEN range can be composted in your backyard or a landfill within 24 weeks, reducing waste and supporting a circular economy.

Make a positive impact on the environment without compromising on quality or taste. Choose our NEXTGEN Coffee Cups and takeaways and join the movement towards a greener future.
