

tamrac®

Designed in California

Maker of quality camera bags
and accessories since 1977.

2020

Innovation in mobility, since 1977.

Our founders were California nature photographers who loved the outdoors, yet lacked protective, quick-access camera bags that were able to keep up with their adventures.

So, one day they decided to create their own.

For over 40 years we have earned our reputation for reliability with photographers around the world. Tamrac has become the trusted bag of choice for many prominent National Geographic, Associated Press, White House Press Corps, and professional sports photographers. We design solutions focused on protecting and transporting camera equipment, electronics, accessories, and more to meet the progressing demands of today's creative. With innovation as a core value, we have created numerous product features widely seen today, such as Dual and Triple-Access Systems™, Dual Foam Technology™, windowpane mesh™, and the Lens-Gate® divider system. We even pioneered the telephoto zoom lens pack in the late 1970's, a standard design in every holster-style camera bag on the market since.

The Tamrac logo, a stylized Tamarack pine tree, is an homage to our founders' love of the outdoors, and dedication to the passion of photography. Our mission is to provide quality camera and gear accessory solutions without sacrificing mobility for protection, or vice-versa.

We make products for creatives.

Over the years, Tamrac earned its reputation for setting the standard for long-lasting durability and camera protection. We also created and patented many of the features that are widely seen in competing products today.

The Tele Zoom Pack

Tamrac first introduced the Tele Zoom Pack in 1978, just as zoom lenses started to become popular. The Tele Zoom Pack was unique in that it allowed photographers to carry a 70-210mm lens attached to their camera. Today, every holster pack on the market is based on this original Tamrac design.

Lens-Bridge® and LensGate® Divider Systems

The patented Lens-Bridge® Divider System allows the camera to sit cradled above the rest of the equipment with various lens lengths attached and ready for action. The LensGate® Divider System has padded gates that swing open and closed to protect equipment from contacting each other.

M.A.S.™ Modular Accessory System

This Tamrac innovation is a full line of quick-release accessories and a padded belt system. The M.A.S.™ system allows personal customization of backpacks, hip packs and camera bags. M.A.S.™ has evolved into our ARC accessory line.

Total Coverage Tops

Total Coverage tops offer convenience and triple protection against the elements by providing three levels of security: hook and loop closures for quick access, EasySqueeze™ quick-release buckles for security, and a zipper closure for the ultimate weather protection.

Windowpane Mesh™

This Tamrac invention combines clear vinyl and nylon mesh to give strength and visibility to the contents of our accessory pockets.

#678 12.96

A close-up, high-contrast photograph of a black Tamrac bag strap and buckle. The strap is made of a textured, woven fabric, and the buckle is a solid black plastic or metal piece with a circular hole. The lighting is dramatic, highlighting the textures and edges of the bag components.

INTRODUCING TAMRAC TRADITIONS

It is often said that one must know their past in order to prepare for the future. We've been making the most durable and usable camera bags on earth since 1977, and now we're preparing to debut an exciting new collection. We draw inspiration from our classics to create the "Runyon" and "Pasadena" bags, the first editions of our new Tamrac Traditions collection.

As we approach our 50th anniversary, we plan on releasing two Traditions products each year as an ode to our past. These new vintage-inspired bags contain the latest Tamrac modular storage technology, high-quality fabrics, durable zippers, and fully-adjustable straps to create the perfect medium-sized backpacks for any sized photo adventure. Both Runyon and Pasadena can hold 2+ cameras, 4+ lenses, flash units, tablets, and all the essentials to become your new adventure bag of choice.

Pasadena

Runyon

RUNYON

VINTAGE STYLE

A throwback to the traditional school bag, Runyon is the ideal casual photo backpack for hiking a favorite trail, or for an impromptu photo shoot around town. Fully adjustable shoulder straps and lightweight, weather resistant fabric make it easy and comfortable taking a mirrorless camera, multiple lenses, an 11" tablet, and more along for the journey.

Surprisingly Cavernous

The large rear opening has space to carry a compact mirrorless or DSLR body, multiple lenses up to 5" long, a flash unit, chargers and adaptors, tablets up to 11", and all of the necessities.

Adventure Ready

Whether taking a camera on your favorite hike, commuting, or gallivanting around town, Runyon lets you do it with style and ease. Simply adjust or remove the main compartment dividers and carry multiple water bottles, books, food, or anything else!

Features

- Holds small DSLRs or mirrorless cameras with lenses and accessories
- Lightweight design maximizes gear protection and reduce weight
- Device storage fits tablets up to 11"
- Genuine leather bottom and accents
- Upper and lower front accessory pockets for keys, wallet, etc.

Runyon

PASADENA

A PACK WITH A PEDIGREE

A pack with a pedigree. Pasadena gets its good looks and versatility from our legendary #787 bag and continues its reputation of high quality and usefulness in the modern age. Carry multiple mirrorless or small DSLR bodies, a tripod, lenses (up to 15" in length), accessories, and devices up to 13". Fully adjustable shoulder straps and padded back support help distribute heavy loads, and lightweight weather resistant fabric keeps equipment protected from the elements.

Mass Appeal

Pasadena fits multiple mirrorless camera bodies, lenses up to 15" long, flash units, laptops and tablets up to 13", in addition to the necessary accessories.

Features

- Main opening holds DSLRs and mirrorless cameras with lenses and accessories
- Fits in overhead compartment of most commercial aircraft (check with your carrier for detailed carry on restrictions)
- Device storage fits laptops and tablets up to 13"
- Weather protective rain fly
- Protective foam dividers are fully customizable for your gear

ANVIL

CARRY EVERYTHING, EVERYWHERE

The Anvil line of professional backpacks is made from modern, lightweight and rugged materials. Anvils use Cordura™ fabrics and high-quality YKK zippers to ensure the durability of your bag and the protection of your equipment. A breathable back system and a removable belt will let you comfortably carry a wide variety of camera bodies, lenses and accessories, a laptop and / or tablet, and ARC accessories. Available in six sizes.

Anvil 27

ADAPTABLE

Easily attach lens cases, flash pouches, and bottle holders with the Arc accessory family

(Arc accessories sold separately)

LIGHTWEIGHT

Anvil packs utilize uniquely engineered foams to optimize protection and comfort to keep the pack light and volume-efficient.

CUSTOMIZABLE

Add Arc accessories (optional) to the Arc belt (included) for extra utility, or remove the belt for lighter traveling.

Features

- Cavernous main compartments with clear pockets keep your gear clearly organized and easily accessible
- Fully-detachable front straps allow for easy tripod attachment
- Includes fitted seam-sealed rain cover for inclement weather
- Device storage fits laptops up to 15"

RALLY

DESIGNED TO GO

Rally v2.0 provides a sleek, convenient way to carry camera gear, accessories, and an iPad, without advertising what's inside. The modern contemporary styling and body-hugging profile won't slow no matter how crowded or hectic the scene. Rally is perfect for any situation requiring a lightweight, mobile shoulder bag for your photo gear.

With its slim profile, fresh look, and messenger-style design, it's the camera bag in disguise!

Features

- Lightweight body-hugging shoulder bag
- Holds compact DSLR with a lens attached up to 4 1/4" and extra lens or small flash
- Handle and adjustable shoulder strap and non-slip patch
- Zippered front accessory pocket
- Mesh side pockets for bottle storage

GOBLIN

MINIMALIST PADDED PROTECTION WHEREVER YOU ARE

Goblin Pouches offer easy-to-access protection, and are made to fit a wide range of lens types and sizes, camera bodies, and accessories. We make a Goblin for your smallest lens, or a 70-200mm, for a mirrorless body or pro-DSLR, and one for your chargers, extra batteries, and travel essentials. A simple cinch-to-shut Ripstop drawstring enclosure makes for easy access to your lens while a quilted, ultrasonically fused interior provides basic padded security.
