10	Drawer	1
11	M8 nut	12
12	Drawer divider	2
13	M5x12 bolt	2

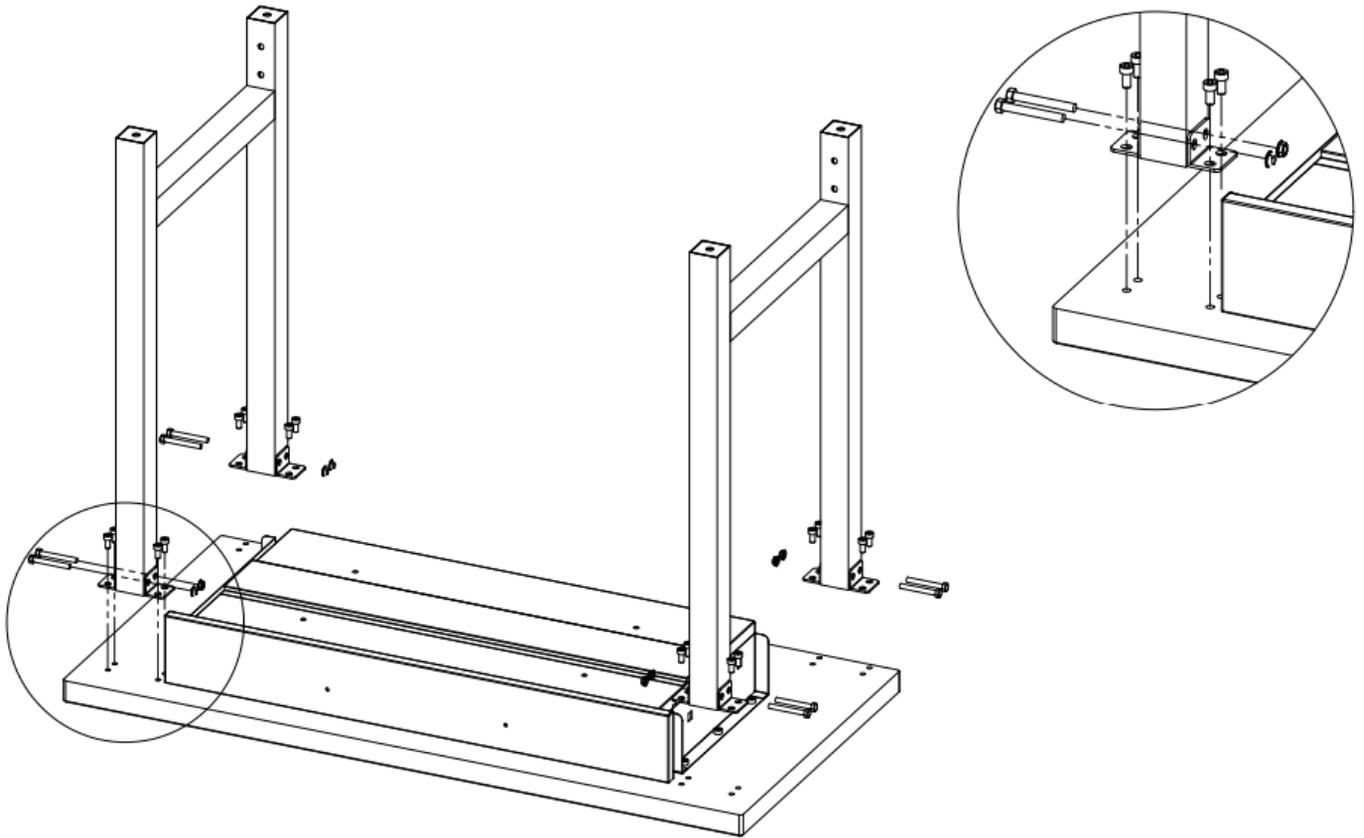

# Install the work bench

Note: We recommend at least 2 adults needed to finish the assembly.

## 1. Fasten legs to the bamboo top

Lay down the bamboo top on a soft surface, align the holes on the “L” bracket (2) with the insert nuts on the bamboo top (1), use twelve M8X16 hexagon socket bolts (4) to connecting them together. Then fasten the eight “L” bracket to the legs with eight M8X65 hex bolts(3) and eight M8 nuts(11).

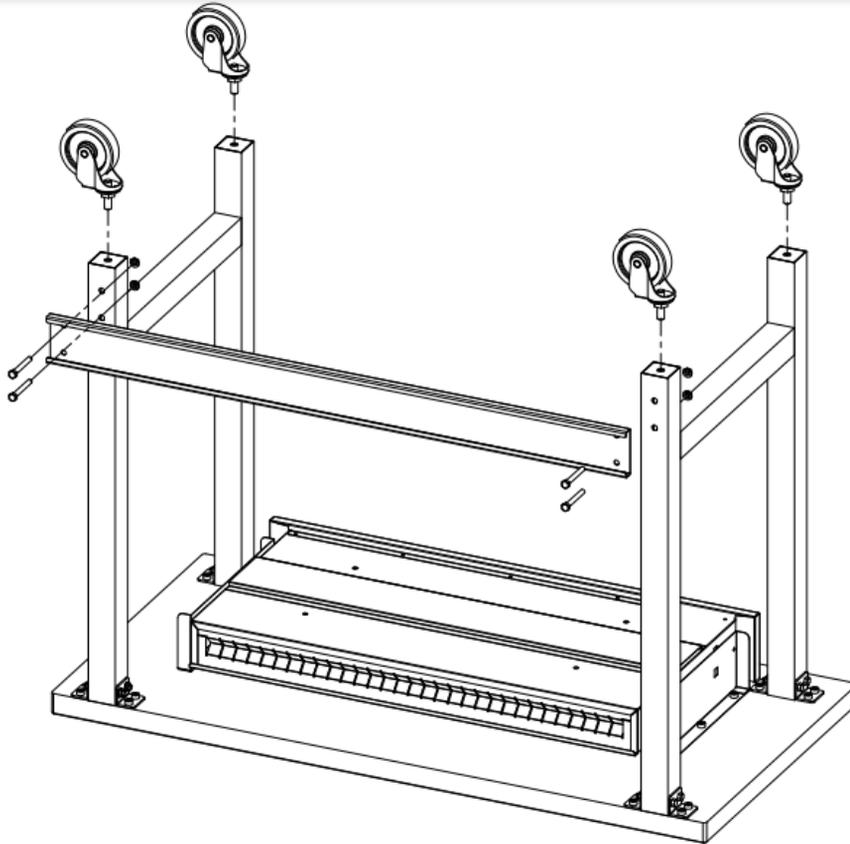

**DO NOT tighten bolts completely.**

## 2. Fasten support to the legs

Use four M8X65 hex bolts(3) and four M8 nuts(11) to fasten support to the legs.

**DO NOT tighten bolts completely.**

### **3. Install wheels**

Please put the two wheels with brake on the front, so that open or close the brake more easier.

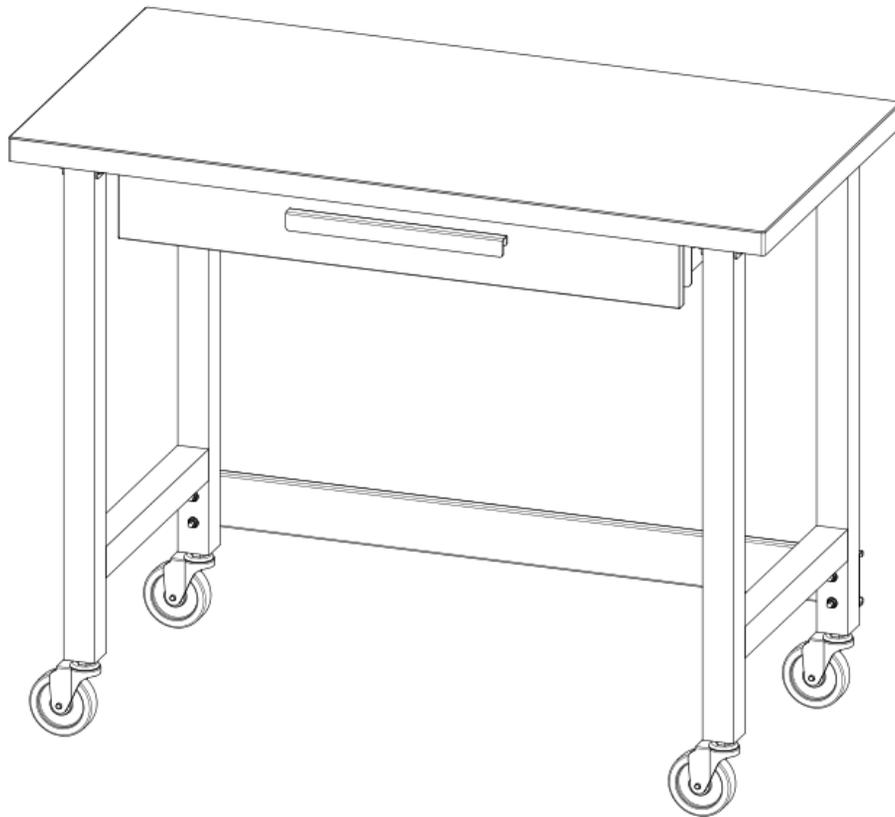

### **4. Tighten all the bolts**

Once all the bolts are installed, tighten them completely.

### **5. Stand up the work bench**

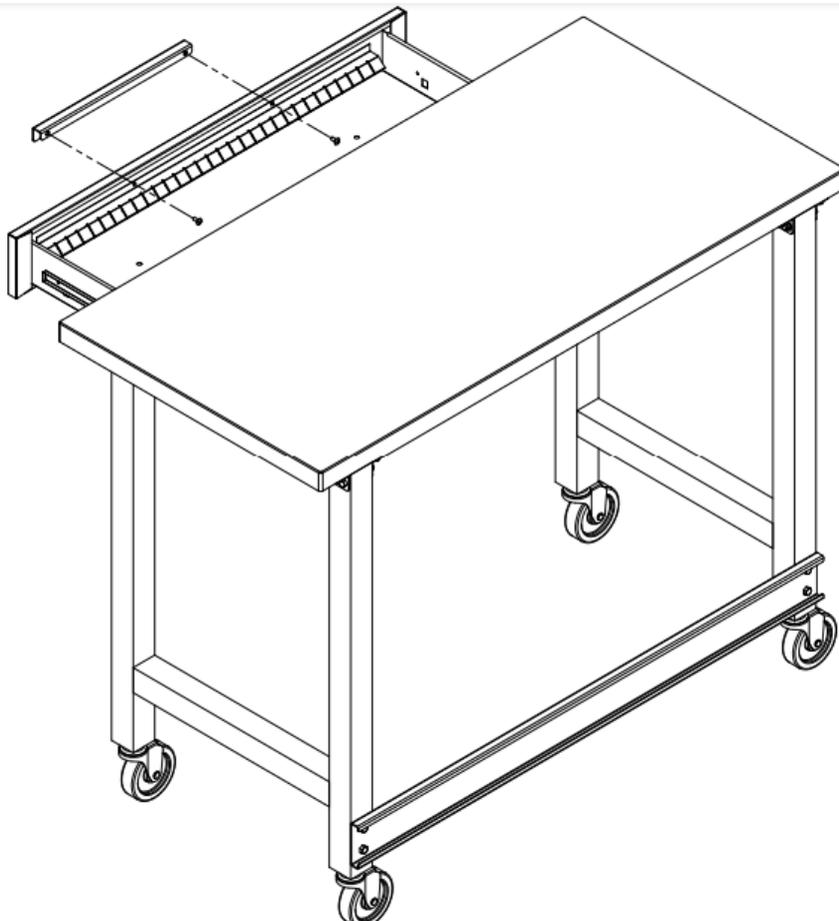

**Note: Two or more adults are recommended to finish the step.**

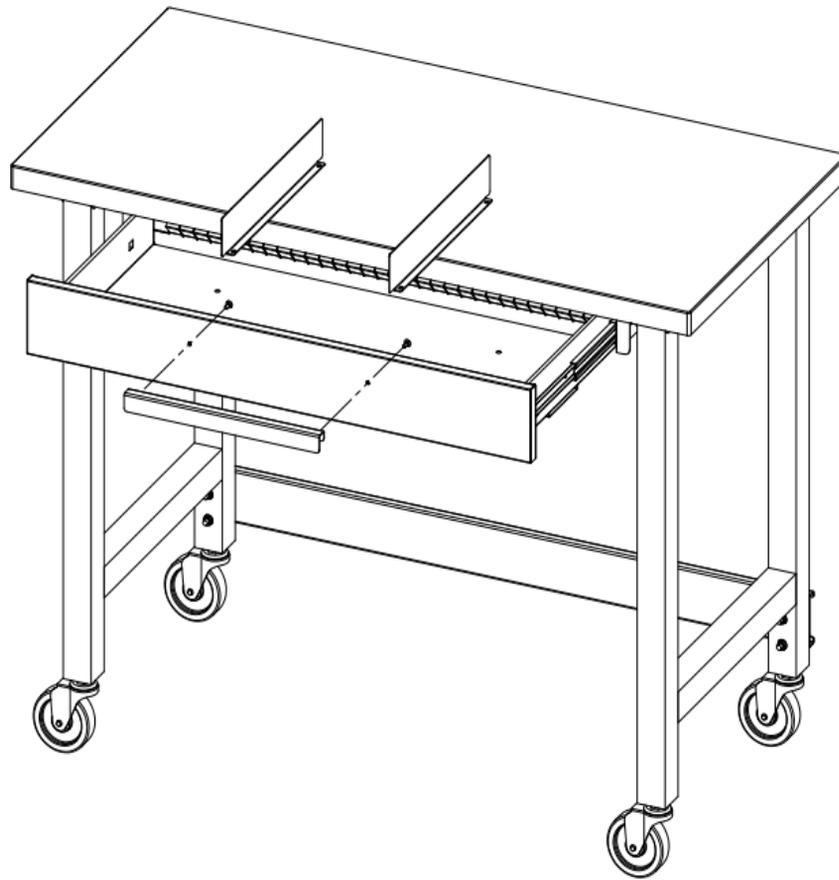

Please make sure close the brake before stand up the work bench.

**6. Install the dividers and handle for the drawer.**

Use M5X12 bolts (13) to install the handle of the drawer.  
Put the two dividers on the drawer.

## Maintenance

1. Periodically clean the work bench with mild detergent and water.
7. For safety, use a non-flammable cleaning fluid. Grease and oil can be removed with most standard cleaning fluids.
8. Do NOT allow water and other fluids to remain on the work bench for any length of time.
9. DO NOT OVERLOAD PRODUCTS ! The components of the product are designed to maximum weight capacities 660lbs(300kgs).
