Specification

Colors	Carbon fiber
Size	172 x 24 (mm)
Weight	150 (g)
Battery capacity	3200mAh high drain battery
Battery Voltage	4.2V
Temperature levels	Various temperature : 160°C-226°C / 320°F-439°F (Factory default setting temperature at 190°C / 374°F)

STEP 1

Unscrew the ceramic mouthpiece to reveal the chamber.

STEP 2

Load and pack your botanical flowers into the chamber.

STEP 3

Screw the mouthpiece back onto the device.

STEP 4

Press the  button 3 times to turn on device. The unit will vibrate and the OLED display the Magnum 3 logo on the screen.

STEP 5

Press the **▲** button to choose Celsius system($^{\circ}\text{C}$), press the **▼** button choose Fahrenheit system($^{\circ}\text{F}$).

Press the **▲** or **▼** button to adjust the temperature, each press will add/decrease 1°C or 1°F accordingly.

Once you have set to the desired temperature, the oven immediately starts to heating up, the device has the haptic feedback vibration to indicate when it reach the desired temperature setting ,and you can start to take your first draw, the draws should be slow and long and enjoy.

POWER ON/OFF

To turn the device ON/OFF, press the  button 3 times.

MEMORY DATA FUNCTION

When you power ON the device again, it'll automatically heat up to the previous temperature setting last used.

Remark: Every time the battery is removed from the device, the device will request a selection on the temperature unit as above. (this is because the IC will lose its memory data)

CHARGING

- The battery requires a fully charged before first use.It can take up to 3 to 4 hours, or until the battery is fully charged.
- Magnum3 battery can also be removed out from the device and be charged through a separated Li-ion 18650 wall charger.
- Battery will need recharging when the battery icon on display flashes 5 times , or that your device will not heat up.
- The device supports a passthrough function.

Attention: In order to preserve the battery life, if the device has been fully discharged, then during the charging process, we have a setting on the software to restrict use the device when battery icon less than 1 bar (because it needs a high discharge current while the unit is heating up) , so please kindly wait until the battery icon reaches to 1 bar at least.

MAINTENANCE TIPS

Brush and use a cotton swab with isopropyl to wipe the oven and mouthpiece.

Detail cleaning: take the ceramic filter and screen out from the mouthpiece and soak in isopropyl for 10 minutes. Dry it with a paper towel or cloth. Reassemble.

Note: Make sure your Magnum 3 is powered off and cool before cleaning.

WARNING

This device contains Lithium-ion battery, please be sure to discard of them responsibly in a recycle bin. Do not dispose directly into trash. Do not overcharge it. Do not short circuit it.

Some Li-ion chargers on the market may have technical deficiencies that may cause it to charge the Li-ion batteries incorrectly or at an improper rate. It is your responsibility solely to assure the charger you purchased works properly. Always monitor charging process to assure batteries are being charged properly. Failure to do so may result in fire.

WARRANTY

PURIS provides 1 year limited warranty from the purchase date. Warranty can only be claim by the original owner of the device.

PURIS does not warranty glass parts or if the device is physically damaged.
