

CAPABILITIES STATEMENT

Calzone Case Company is a Connecticut based corporation, small business manufacturer of reusable shipping containers and enclosures. Founded in 1979, our main facility is located in Bridgeport, CT with sister companies in Industry, CA (Anvil Case Co., founded 1952) and Carrollton, TX (Calzone Case Texas, founded 1985)

Capabilities

- Design and manufacture reusable shipping containers from ABS covered plywood as well as molded and formed plastic and metal
- Protect electronics, instrumentation, critical parts and components
- Used in transport of items around the globe or within a single building
- Reduces transport damage, FOD; maintains integrity, critical characteristics
- Allows organization, rapid ID and deployment of all items
- Serve the aerospace, military, electronics, telecom, broadcast, and sports industries

Test Results (Calzone/Anvil cases meet the following specifications)

- Mil-Spec 810C /D
- International Air Transportation Administration (IATA)
- Air Transportation Administration Spec 300 (ATA)
