

A close-up profile of a woman's face, looking upwards and to the left. She has dark skin and short, dark hair. Her eyes are heavily lined with a vibrant purple eyeshadow that extends from the inner corner to the outer corner. Her lips are coated in a glossy, reddish-brown lipstick. The background is a solid, muted purple color.

PREBIOTIC EYE MAKE-UP REMOVER GEL

What is it?

Designed to thoroughly, yet gently remove non-waterproof eye make-up, this oil-free, micellar gel eye make-up remover contains powerful prebiotic ingredients to promote a healthy skin microbiome and help prevent irritation. Caffeine and Aloe Vera aid in reducing the appearance of puffiness and under-eye dark circles, as other active ingredients help thicken and condition the lashes.

The hypoallergenic formula is gentle on even the most sensitive eyes, while the gel consistency glides over lashes and extensions without snagging against bonds, reducing over manipulation of the lashes and thereby helping to improve retention.

The need-to-knows

RRP \$45.00

Hypoallergenic formula

Suitable for lash extensions

Registered with the Vegan Society

Who is it for?

- Anyone looking for a gentle yet effective eye make-up remover, or those who regularly get lash extensions

How to use:

For best results, apply product to a cotton pad and gently work around closed eyes. No need to rub or rinse off.

01 | CLEANSE

LASH & LID FOAMING CLEANSER

What is it?

This gentle foaming cleanser is designed for daily use, to thoroughly cleanse and condition lashes and the delicate eye area. Powerful prebiotic ingredients create a healthy skin microbiome to soothe the eye area and help prevent irritation. Key anti-ageing ingredients also provide intense hydration to allow the skin to better defend itself against environmental aggressors and other ageing effects. This product can be used in conjunction with our cleansing brush.

The need-to-knows

RRP \$49.00

Refreshes treated lashes

Suitable for lash extensions

Registered with the Vegan Society

Who is it for?

- Those who regularly get lash extensions or lash lifts and want to keep them clean and refreshed without compromising the treatment results
- Also suitable for use on natural lashes

How to use:

Pump onto the back of your hand and swirl the Lash & Lid Cleansing Brush through the foam. Brush through in the direction of the lashes and softly massage the eyelid to thoroughly cleanse and remove dirt. Use a damp cotton pad to wipe off with warm water and finish by brushing through lashes with a mascara wand.

3 | STEP LASH CARE SYSTEM

01 | CLEANSE

LASH EXTENSION REMOVER

What is it?

Lash extensions should always be removed carefully to avoid damaging natural lashes. Pulling out a lash could prematurely remove it. This is especially detrimental if the lash is still in the anagen (growth) phase. That's where the Lash Extensions Remover comes into play.

Lash extensions can now be removed safely and effectively in the comfort of your own home, without the need to have them professionally removed in a salon. The Lash Extension Remover gently and comfortably breaks down adhesive bonds and conditions your natural lashes.

The need-to-knows

RRP \$29.00

Safely removes professional extensions

Suitable for lash extensions

Registered with the Vegan Society

Who is it for?

- Anyone who's had a lash extension treatment, whether it's a one-off or they're a regular

How to use:

Brush applicator up lashes from root to tip. Leave on for 3-5 minutes. Use applicator to brush eyelashes again from root to tip, before sliding lash extensions off. You may require a second application if a stronger adhesive has been used and a further 5-10 minutes.

LASH & BROW CONDITIONING SERUM

What is it?

This best-selling serum contains powerful antioxidants, multi-vitamins and nourishing actives to create a daily conditioner for lashes and brows. Used daily, it provides lashes and brows with all they need to appear instantly conditioned, as well as provide long-term benefits to help give lashes a fuller appearance. When used beneath mascara, it can also act as a primer.

Locks in
moisture

Registered with
the Vegan Society

Who is it for?

- Suitable for use on natural lashes, lash extensions (excluding volume lashes) and LVL treated lashes

How to use:

Apply Lash & Brow Conditioning Serum to cleansed lashes from root to tip, and/or brows by sweeping the applicator wand through brow hairs. For best results, apply Lash & Brow Conditioning Serum twice a day for an intense conditioning treatment.

REPLENISHING LASH & EYE MIST

What is it?

This daily-use mist delivers advanced hydrating, strengthening, photo-protection and anti-ageing benefits to the lashes and complete eye area, without weighing down or impacting lash extensions.

Multifunctional protein and antioxidant-rich vitamins C and E help protect, condition and strengthen lashes from within, minimising the chance of brittleness and breakages. Packed with powerful prebiotics, this super-fine mist helps to recalibrate and restore a healthy skin microbiome, the skin's natural protective barrier, leaving eyes and lashes soothed and replenished. The formula also helps to firm and smooth the skin texture of the delicate eye area.

The need-to-knows

RRP \$39.00

Instant lash hydration

Skin anti-ageing benefits

Registered with the Vegan Society

Who is it for?

- Those who regularly have lash extension treatments, or anyone looking for a conditioning product for the whole eye area

How to use:

Hold 20-30cm away from closed eyes. Spritz half a pump over eye area, or full pump over entire face. Gently tap any unabsorbed product into the skin. Apply morning and night to cleansed skin. Can also be applied over make-up throughout the day for an instant pick me up.

TRIPLE ENHANCE LASH SERUM

What is it?

Formulated with a powerful Triple-Peptide Complex, this serum supercharges lashes and improves lash length, strength and volume in as little as 30 days*. Multifunctional protein and anti-pollution ingredients help to strengthen lashes from within, minimising breakages and brittleness.

Triple Enhance Lash Serum is applied with a brush along the lash line to target the root/follicle of the lash, supporting voluminous lash growth. Independent Consumer Trials revealed a noticeable improvement in lash length, volume and strength in as little as 30 days, and significant perceived improvements after only 12 weeks*:

80%* felt there was an improvement in the overall condition of lashes
70%* experienced longer-looking lashes
76%* felt lash volume had improved
74%* stated lashes looked fuller
73%* felt the strength of lashes had noticeably improved (i.e. reduced lash loss when applying and removing eye make-up)

*Based on an Independent Consumer Trial of 99 females applying the product twice daily for 12 weeks.

The need-to-knows

RRP \$79.00

Triple action lash serum

Precise applicator wand

Registered with the Vegan Society

Who is it for?

- Anyone hoping to achieve naturally longer and stronger lashes

How to use:

Apply to the base of the lashes (as you would an eyeliner) starting at the inner corner. Apply morning and night for enhanced results and allow 2 minutes to dry before going to bed or applying make-up.

3 | STEP LASH CARE SYSTEM

03 | ENHANCE

ENHANCE MASCARA

What is it?

Enhance Mascara contains nourishing and strengthening properties to help support lash health and natural lash growth. This must-have mascara adds glamorous volume to natural lashes and individual lash extensions, without affecting the adhesive bonds. The hypoallergenic formula is gentle enough for even the most sensitive of eyes.

The double-sided applicator brush can be used for both classic lash extensions and natural lashes. The short bristles favour lash extensions, while the long bristles work to separate natural lashes, or vice versa depending on personal preference.

The need-to-knows

RRP \$49.00

Hypoallergenic formula

Safe for lash extensions

Who is it for?

- Regulars for lash treatments looking for a mascara that won't impact extensions, or those looking to add volume to their natural lashes
- Suitable for use on natural lashes, lash extensions (excluding volume lashes) and LVL treated lashes

How to use:

Using the preferred side of the double-sided brush, or a combination of both, sweep our Enhance Mascara through lashes from root to tip.
