*“Active Sports has taken care of my tennis court equipment needs for years. I appreciate their excellent customer service and how fast they get me what I need.”*

— Tommy Wade, USPTA Master Professional  
Jimmy Johns Tennis Center, Decatur, AL

## Why Active Sports?

### Unbeatable customer service

We strive to build strong relationships with our customers that last; without our customers we are nothing.

### Our price and selection can't be beat

Call and let us put together a pricing package for you. If you find a better price, we will try our best to beat it!

### Nearly 35 years of experience and superior product knowledge

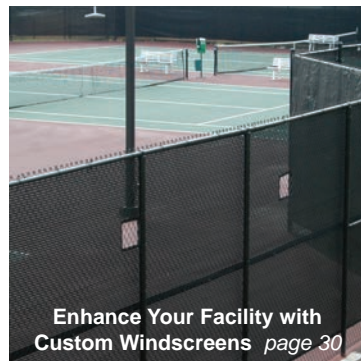

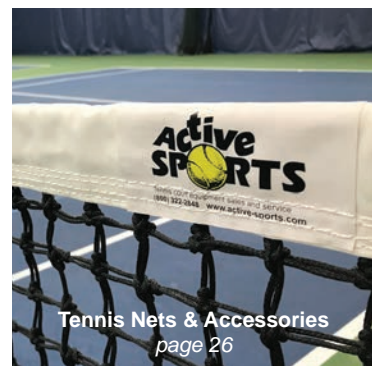

### Large inventory and immediate shipment

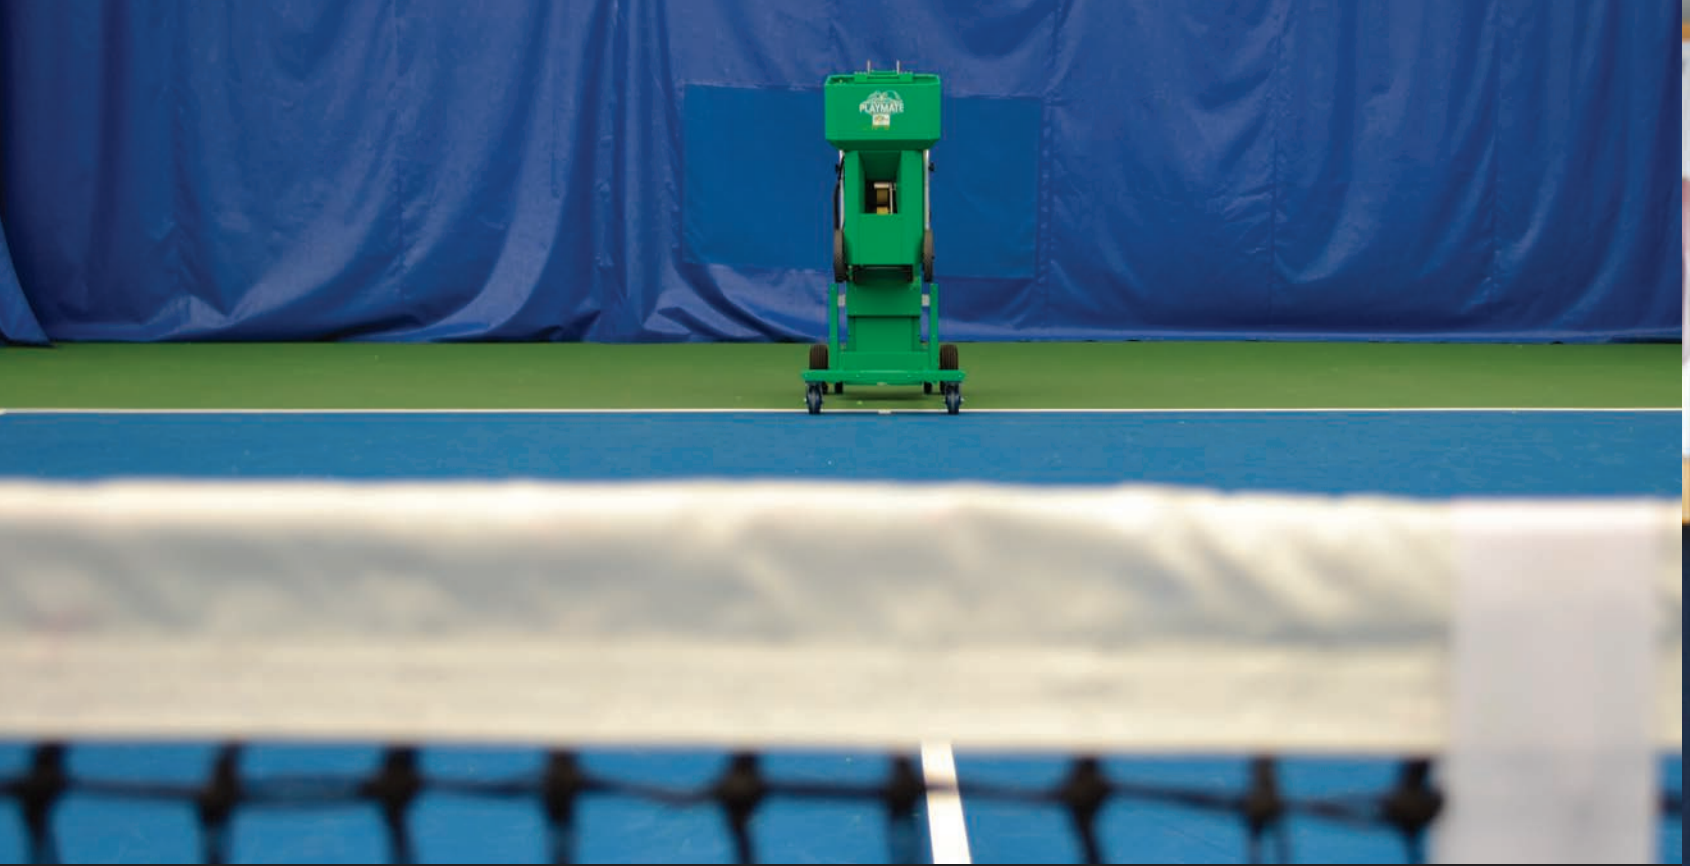

Most items ship within the same business day.

# *it's time for* **tennis**

Tennis is a social game of competition and relationship. The same principles drive our business; we strive to offer competitive pricing and create meaningful relationships that last.

## Why a ball machine?

### As an amenity for a club

Any club administrator will tell you that a tennis ball machine will easily pay for itself as well as attract new members to your facility. Members want access to a tennis machine to use as a practice tool and hitting buddy; pros love having a machine around as a teaching aid. Active Sports sells only the best, most reliable machines that will offer your members and pros the most for the investment.

### As a personal trainer

Whether it's a portable machine that you can take to the local park or the most advanced PC controlled Playmate for your private court, a ball machine is a practice partner that will deliver you the perfect ball every time and never get tired! A ball machine will always give you a good workout and is always flexible to your schedule. It is good for all ages and skill levels. Bottom line, owning a ball machine will allow you to become that much better than your opponent!

### As a teaching tool

Teaching pros and coaches know how tiring it is to feed tennis balls to students hour after hour. A ball machine eliminates this by delivering the perfect ball every time, allowing you to focus on teaching form and technique. And paired with a serve lift, a ball machine allows students to practice one of the most difficult shots: the return serve. Regardless if you're the coach of a well know tennis program at a major university, a tennis player that gives lessons on the side, or anything in between, there is a ball machine to fit your needs and price range. Let us help you find the best machine and give you the best price!

# Advantage Playmate

Convenient and easy-to-use rear-mounted controls that are upgradeable.

iPhone/iPad integration via Playmate allows drills to be created and shared.

Superior engineering and only the best mechanical components.

All aircraft aluminum construction for optimal durability and no rust.

All Playmate commercial machines are compatible with the Serve Lift.

Bob Bayliss, Coaching Legend

**ease of use**

**Playmate Ace**

The Playmate Ace is easy to use, making it the perfect machine for rentals or for use on a private court. Like all Playmate ball machines, the Ace offers superior durability and performance.

- Variable topspin and backspin
- Electronic Variable Oscillation to 1, 2 or 3 lines
- Electronic elevation control
- 200 ball capacity
- Rear-mounted, user-friendly control box
- 2 function remote control (on/off with drill reset)
- Aircraft aluminum construction for optimal durability
- Compatible with Playmate Serve Lift
- Not upgradeable
- Three-year limited parts warranty

**Playmate Ace Ball Machine**

**Chameleon  
Series**

Playmate Chameleon Series ball machines allow you to easily upgrade the features of your ball machine within seconds by simply unplugging one controller and plugging in the other. Tennis clubs can purchase one ball machine and use the simplest controller (Smash Control Box Only) for rentals and a more powerful controller for teaching or running clinics.

### advanced features

## Playmate iGenie

The Playmate iGenie is a powerful tool for teaching tennis. Realistic game situations with up to 7 shots can be practiced. Groups of students can practice drills such as ground-stroke, approach, lob to 2 lines feeding the balls every 1 1/2 seconds. Or if you are practicing at home you can throw two ground-strokes followed by an approach shot, followed by a volley, followed by a lob. The iGenie is part of the Chameleon Series.

- 7 distinct programmable shots, each with its own speed, spin, and delay
- 7 programmable shot delays
- 7 programmable directions
- 7 programmable elevations
- Random sequence switch to simulate game situations
- 300 ball capacity
- Variable topspin and backspin
- 2 function remote control (on/off with drill reset)
- Rear-mounted control box
- Compatible with Playmate Serve Lift
- Aircraft aluminum construction for optimal durability
- Three-year limited parts warranty

## Playmate GrandSlam

The name says it all! The Slam is the fastest ball machine in the world. It can throw any type of spin, including:

- Left-handed slice
- Right-handed slice
- Left-handed kick
- Right-handed kick
- American twist

The Slam can land a 120 mph serve every time. It can randomly serve to a player up the "T", at the body or out wide. The unique four-wheel design allows the Slam to grip the tennis ball like no other machine in the world.

- 7 distinct programmable shots, each with its own speed, spin, elevation, and delay
- Programmable random shot sequence
- Great for enhancing ball recognition skills
- Upgradeable and interchangeable - accepts all controllers
- 300 ball capacity
- 7 position programmable electronic direction with programmable random
- Variable electronic height
- User-friendly controller
- Serve lift friendly
- 2 function remote control (on/off with drill reset)
- Aircraft aluminum construction for optimal durability
- Three-year limited parts warranty

## iPlaymate Tennis

Use your iPhone®, iPod Touch® or iPad® to wirelessly control your Playmate commercial ball machine, and create and share drills with Playmate's Like My Drill app.

The iPlaymate Tennis is a bluetooth communicator that you simply hang on your Playmate ball machine and plug into the control box port. Once installed, you can connect to your ball machine on your iPhone®, iPod Touch® or iPad® using Playmate's special app, Like My Drill, available at the App Store.

The Like My Drill app allows you to create drills and directly control your Playmate ball machine. Like My Drills connects directly to the online Playmate Drill Community where you can customize your own drills and share those drills with your friends. Because the Playmate Drill Community is online, an internet connection through WiFi or 3G is required in order to use Like My Drill.

- NEW! iPlaymate Tennis Workout Tracker
- Remote control your Playmate ball machine
- Create drills and track balls hit
- Share drills/compare results with friends
- Organize drills by type, skill, player names, etc.
- Create library of drills for the club
- Designed with bluetooth for longer battery life
- Supports device rotation

The iPlaymate Tennis is compatible with any Smash, Deuce, Genie, or Playmate PC that was produced since 2005 and any Slam or Grand Slam that was produced since 2006. Keep in mind that while your ball machine is compatible, there are some advanced features that will only work on ball machines produced since July 2012. For a fee, compatible ball machines produced since 2009 can be upgraded to include the advanced features. Contact us for details.

## Playmate Serve Lift

Upgrade your new ball machine with a Serve Lift. Not only can the Serve Lift help you practice the most important shot in tennis, the serve return, but it can do so much more. Your opponent often hits a slice with the racquet high in the air, so practice a realistic slice that comes from a naturally elevated position to create a truly game-like environment.

- Practice defensive lobs against the ball machine's overhead
- "Safety first" stable design
- Aircraft aluminum construction
- Three-year limited parts warranty

## Playmate Portable Series

The Playmate portable series is the most reliable and powerful portable machine on the market. Borrowing all the great engineering from its larger siblings that has made Playmate the industry standard for ball machines, the Playmate portable is the perfect practice partner for tennis players of all levels and a helpful aid for teaching pros on the go.

- The only do-it-yourself (DIY) upgradeable battery-operated machine in the world; *start out with the Half Volley and add features like a remote system or 2-line oscillator to upgrade it to the Volley model*
- Non-memory, removeable battery pack system with SMART charger
- 200 ball capacity
- Variable electronic ball speed and feed rate
- Commercial pitching wheels, capable of pitching all tennis balls (old or new)
- Adjustable height control capable of groundstrokes to lobs
- Aircraft aluminum construction
- 2 year limited parts warranty

**FULLY UPGRADEABLE!** start out with the Half Volley and upgrade to the Volley by simply plugging in an optional 2-line oscillator module, add a commercial remote system to start and stop ball feed from across the court, the controls are already there!

Highest quality components and industry's best pitching wheels

Ball hopper slides down for storage and up for play

Removeable battery pack with smart charger. Only bring the battery inside to charge, not the entire ball machine!

Easily transported in the back of a small SUV and most autos

## Volley

The Volley comes fully loaded with all the options!

- Removeable 6-hour battery pack
- 2-line oscillator with variable electronic width and random function
- Commercial remote control

## Pickleball Net System

We have gone the extra mile to create the most durable set on the market. We also increased stability to keep your set stable even in tough windy conditions. The sleek new frame design has been lifted off the ground to allow balls to pass underneath. The 3.0 set also comes in a retrofitted carrying bag with pockets for both your paddles and balls. 3.0 Tournament Set Product Features: Net & Metal Frame only. (no paddles or balls) Rules & Instructions. Updated design, portable and lightweight. Sets up in less than 10 minutes. Powder coated frame with new reinforced support plates. Increased stability throughout with re-designed standards and added mid-net support. Improved nylon carrying case with dedicated pockets for both balls and paddles. Raised lateral bar allows for balls to pass underneath. Amended vertical net dimensions to compliment raised lateral bar.

**Pickleball Net System**  
PPLPNS

## Douglas Pickleball Premier SQ Surface Mount Net Posts

These new square pickleball posts can be mounted anywhere, instead of having to create a footer with concrete and worrying about concrete setting etc., all you have to do is drill 8 holes and run lag bolts into your old construction. Easily convert your old tennis court into multiple pickleball courts without the hassle!

- 3" square net posts with 11 gauge steel wall thickness
- Complete with welded lacing rods, cast aluminum alloy caps and gear housings
- Baked on polyester powder coat
- Removable chrome plated handle for superior protection
- Internally wound and features a self-locking gear
- Plated steel gears
- Case hardened small gear function is 30-to-1 to ensure easy operation
- Thick bottom base plate to secure to old or new construction

**Douglas Pickleball Premier SQ Surface Mount Net Posts**

## Dura Fast 40 Outdoor Pickleballs (per dozen)

Each Dura Fast 40 Pickleball is manufactured to exacting standards as a seamless one piece ball before our hole pattern is machined into it. The attention to detail in this process creates the longest lasting, highest quality pickleball on the market today.

- Official Ball of the 2017 US Open Pickleball Championships
- Official Ball of the 2016 USAPA National Tournament
- Developed specifically for the game of Pickleball traditionally used outdoors
- Can also be used for baseball and softball training drills
- Your choice from 4 different colors Yellow, White, Orange and Neon Green

### Easy to Install Rolls

A low-cost alternative to custom windscreens. Made of knitted polyethylene that does not fray. *Do it yourself:* roll it out, cut to the desired size, and even cut air vents. Available with grommets.

**6' Windscreen Roll (120 feet)**  
WR0L6

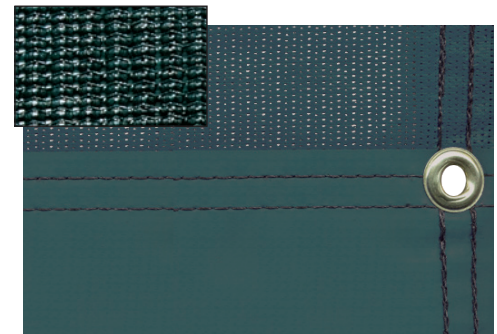

**9' Windscreen Roll (120 feet)**  
WR0L9

### Tuffy® Open Mesh

Made of Vipo!™ Matrix Material, a super-durable open mesh fabric of tightly woven micro-fibers, Tuffy® open mesh windscreen is extremely tough as the name implies. Finished with double-needle lock stitching. 6' or 9' standard heights. 78% opacity. Ideal for a custom logo.

Call for a Quote

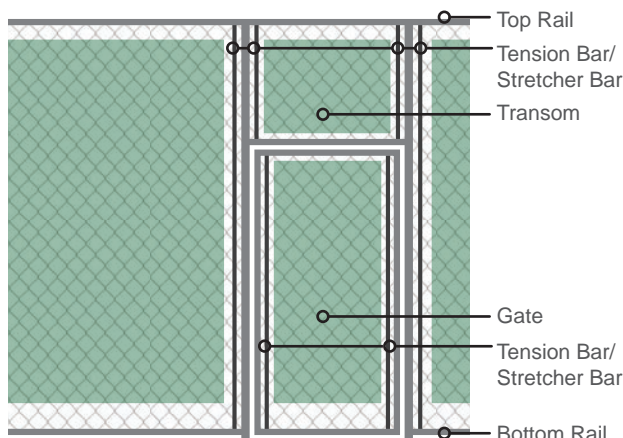

### TwinScreen

The ultimate windscreen for outdoor tennis, our Twin Sreen has a center section of heavy duty vinyl (100% opacity) for added privacy and ball perception and a bottom and top section of polyester open mesh windscreen material (70% opacity). Available in 9' height only.

Call for a Quote

## How to Measure Custom Windscreens

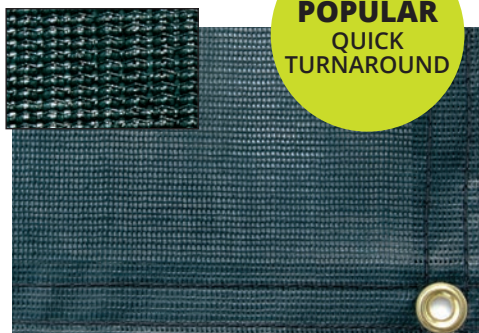

Measuring for custom windscreen is very easy but should be done with care to ensure proper fit and best results. A few tips:

- Begin measurement at a terminal (corner) post and continue to the next terminal post.
- Measure windscreen length from inside of tension bar to inside of tension bar.
- For ease of handling, windscreens should not exceed 60' in length.
- Mark each measurement on court diagram. Exact measurements are necessary (including feet and inches). Do not guess or round off dimensions. No two fences are identical
- Most tennis court fencing is 10' high. Custom windscreens are generally sold in 6' or 9' heights. Therefore it is generally only necessary to measure the length of the fence, not the height of the fence.
- Gate: The width of the gate should be measured from inside tension bar to inside tension bar. The height of the gate should be measured from the bottom of the top rail to the top of the bottom rail.
- Transom: The width of the transom should be measured from inside tension bar to inside tension bar. The height should be measured from the bottom of the top rail to the top of the rail over the gate opening.

**MOST  
POPULAR  
QUICK  
TURNAROUND**

### MasterScreen Open Mesh

Our most popular windscreen! Our polyester open mesh windscreen is made from vinyl-coated polyester mesh and is extremely strong and manufactured to last with reinforced, heat-sealed hems. Custom cut to your specifications. 6' and 9' heights. 70% opacity.

Call for a Quote

### MasterScreen Closed Mesh

Ideal for creating a visual backdrop or for hiding an unsightly area, our polyester closed mesh material is made from premium 10 oz. vinyl-coated polyester. Reinforced, heat-sealed hems with grommets every 12". Available in dark green only. 6' and 9' heights. 99% opacity.

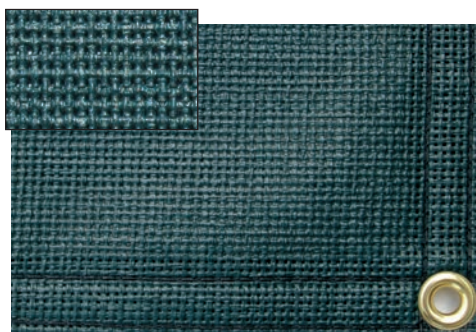

Call for a Quote

### DuraScreen Open Mesh

Our Durascreen open mesh windscreen is made of a vinyl-infused, flex-foamed mesh to give it a puffy appearance and causes it to lay very nicely on the surface of the fence. Manufactured with reinforced, heat-sealed hems for added durability. 6' and 9' heights. 80% opacity.

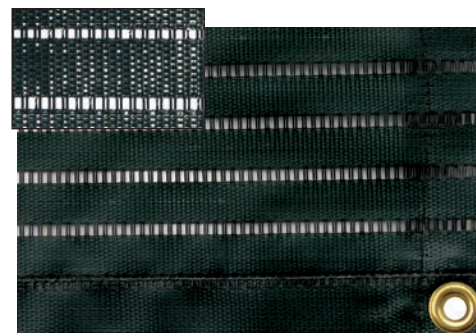

Call for a Quote

### DuraScreen Closed Mesh

Our Durascreen closed mesh windscreen is made of a vinyl-infused, flex-foamed mesh to give it a puffy appearance and causes it to lay very nicely on the surface of the fence. Added opacity for greater coverage. 6' and 9' heights. 95% opacity.

Call for a Quote

### PolyScreen Open Mesh

This windscreen is made from leno polypropylene material that does not absorb moisture and is UV-resistant. Its leno weave is resistant to tearing and works well in severe wind conditions. Standard in dark green, black, and blue. 75% opacity.

Call for a Quote

### PolyScreen Closed Mesh

A great site barrier and background material, our polypropylene closed mesh is very durable and withstands the elements well. It does not absorb moisture and is UV-resistant. Manufactured with reinforced hems with grommets every 12 inches. 95% opacity.

Valparaiso University, Valparaiso, IN

## Custom Windscreen

Custom windscreen from Active Sports makes your facility look professional and offers added privacy as well as creating a backdrop for improved ball perception.

# Custom Windscreen

## Enhancements & Accessories

**Boxed Air Vents**

**Die Cut Air Vents**

### Windscreen Air Vents

Air vents reduce the amount of stress windscreens place on a fence, especially during high winds. They are recommended every 10 linear feet on 9 ft tall windscreens.

### Fastening Devices

50 lb tensile strength ty-raps are recommended.

**Ty-Raps: 50 lb, 8"**  
(100 Pack)

FCT8B50-100

**Ty-Raps: 50 lb, 8"**

## Vinyl Backdrop Curtains

Vinyl curtains help to separate courts and contain stray tennis balls, create a visual backdrop, and block distracting foot traffic. Curtains tend to be around for many years so it is important that they be made well so that they last! Our curtains are made from high quality, flame retardant, reinforced vinyl and all seams are heat-sealed and double sewn.

### Options & Applications:

- Available in any height to accommodate existing cable systems
- Available in 13 oz., 18 oz., and super strength 22 oz. weights
- Numerous colors and options available (see details)

**Replacement Brush Assembly**  
(includes brush, springs, axle, and bushings)  
LBLLM-RBA

### Line Scrub

This simple line brush is great for breaking up tough, caked-on material. Heavy bristles give the brush extra body and an angled aluminum handle provides extra leverage.

**Line Scrub**  
LBLLSCRUB

**Replacement Brush**  
LBLLSCRUB-RB

### The Court Maid

Constructed of powder-coated aluminum, this ground level unit is designed to be installed at exit points of clay courts. Simply brush shoes on its bristles and all clay falls into its collection basin. Brush unit lifts for removal of accumulated clay. No electricity or water required.

**Court Maid**  
SCLCM

### Har-Tru Shoe Brush

This shoe brush has a sturdy metal base that can be attached to the sidewalk or left free standing. Soft upper bristled dust off the sides of shoes while stiff bottom bristles scrape topping from the soles. Poly brush mounts will not crack or rot like typical wood.

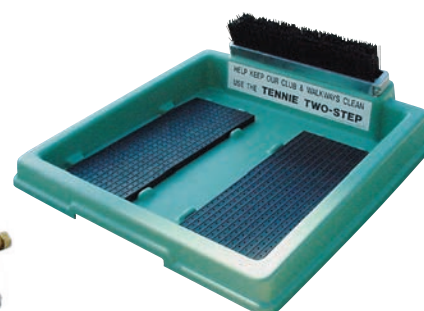

**Tennie Two-Step with Brush**  
SCLSB

### The Treadblaster

This unique shoe cleaner uses high force, concentrating nozzles that shoot crossing jets of water into the soles of your shoes., cleaning out all clay in 5-10 seconds. No electricity required, only a standard 3/4 inch garden hose (30 - 60 PSI). Mounting plate includes.

**Treadblaster**  
SCLTB

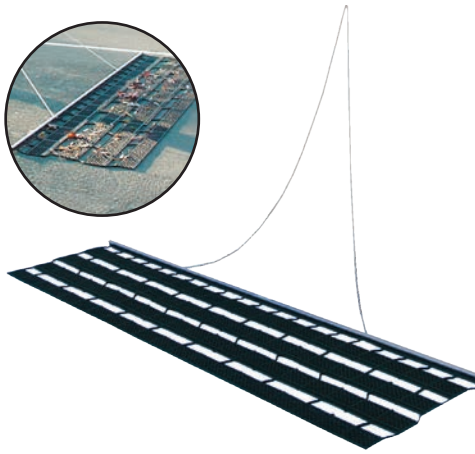

### Tennie-Two Step

The industry standard for keeping facilities clean of clay! It consists of a UV-resistant water basin containing two perforated rubber panels designed to force water into the soles of tennis shoes and clay material out.

### Aussie Clean Sweep

This unique combination tool came all the way from Australia to help pick up and remove those troublesome leaves, pine needles, stones, and other debris found in your soft court. The PVC tines lift the debris and flip it on top of the unit so it can be carried off the court. It even pick up ball fuzz! It simultaneously grooms the court.

**8' Aussie Clean Sweep**  
GLA8

**4' Aussie Clean Sweep**  
GLA4

### Steel Bristle Drag Brush

The steel bristles of this drag brush excel at agitating the surface of hardened indoor and outdoor courts with sub-surface irrigation. They help break up algae and prevent its formation. Stainless steel bristles resist rusting and increase this product's durability. Bristles come in 12" sections and replacements are available.

**Hand Model**  
GL6SDB-H

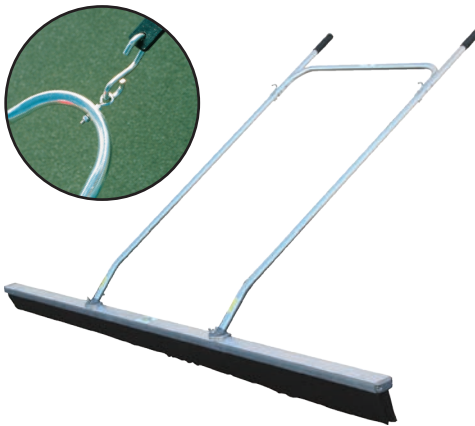

**Tow Model**  
GL6SDB-T

### Mahogany Drag Broom

This classic drag broom uses natural fiber bristles to groom the court. It is 7' wide with 7" natural bristles. It has a green enameled steel tube handle.

**Mahogany Drag Broom**  
GLMDB

### Aluminum Drag Brush

A standard of the industry, this drag brush has the built-in strength and versatility with replaceable dual 4 1/2" bristles designed to level and manicure your court. Reverse the handle and double the life fo the broom. Every club should have one!

### Lute/Scarifier

The lute/scarifier is two tools in one - all aluminum for scarifying, leveling and removing loose granules. It is strong and sturdy, yet light enough to use all day and excellent for spreading new or patch material. The concave shape allows the tool to "float" along the surface, without grabbing or digging in.

**30" Lute/Scarifier**  
RELLS30

**48" Lute/Scarifier**  
RELLS48

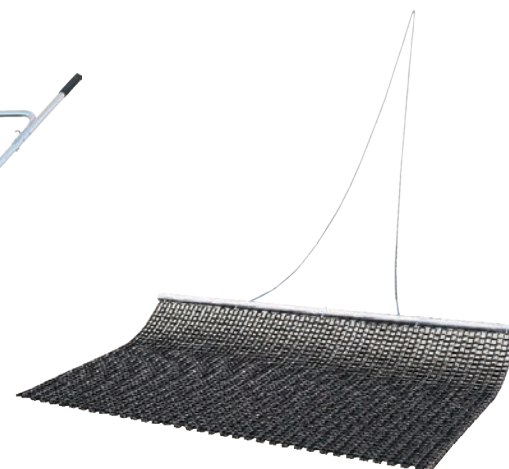

### Court Rake

An excellent grooming tool, the court rake is designed to loosen and groom the court surface with narrow spring steel teeth. The court rake can be safely pulled over the line tapes and has a built-in fence and net guard. It is 73" long.

**Hand Model Court Rake**  
SLCR-H

**Tow Model Court Rake**  
SLCR-T

**Replacement Teeth (six sections)**  
SLCR-RT

### Steel Drag Mat

Great for regular care of any clay court, a steel drag mat helps to prevent algae, mold, and hard spots. It will level and groom as well as simultaneously turn the surface preventing algae from setting in.

**3' x 5' Steel Drag Mat**  
GRDM35

**6' x 3' Steel Drag Mat**  
GRDM63

### Tru-Flo Spreaders

Unlike conventional drop spreaders that rely on gravity to help release material from the hopper, Tru-Flo spreaders pull the surface out of the hopper and onto the court with unmatched consistency. Tru-Flow's ground driven system means there are no hydraulics, pumps, or engines to malfunction. A 24" hand model will hold up to 4-80 lb bags of clay and the 36" and 54" tow models can handle over 15 bags.

**24" Hand Spreader**  
RELTFS24-H

**36" Tow Spreader**  
RELTFS36-T

**54" Tow Spreader**  
RELTFS54-T

**GANDY SPREADERS ALSO AVAILABLE**

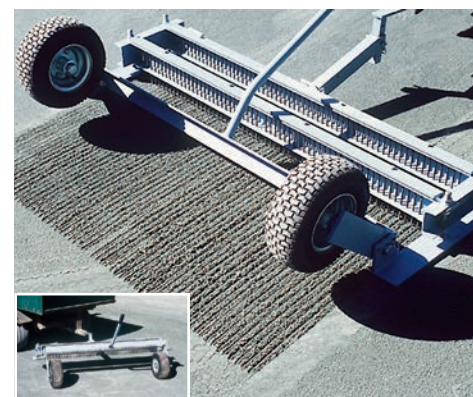

### Court Devil/Court Devil Jr.

The tow model Court Devil is designed to agitate the court surface without removing or damaging existing line tapes. It helps prevent and break-up mineral deposits, mold, algae, and fungus that may tighten the court surface. It agitates with circular steel blades mounted on free turning axles. Weighs 105 lbs. and is 48" wide.

This smaller hand-model Court Devil Jr. is designed for maintaining areas along the court perimeters and beneath the net line. It is also great for loosening localized hard spots. Weighs 85 lbs. and is 16" wide.

**Court Devil**  
SLCD

**Court Devil Jr.**  
SLCDJ

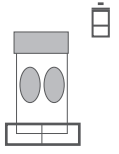

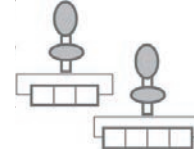

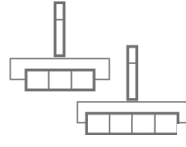

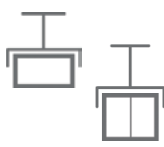

### Tow Scarifier

This 48" wide heavy duty tow model scarifier is truly a workhorse for loosening the top surface on clay courts. It is especially good for indoor clay courts and sun-baked, southern courts with excess calcium build-up. The unit is heavy enough to allow its two rows of case hardened nails to really penetrate the surface

- Staggered rows prevent clumping
- Sized to fit beneath the alley tapes
- Levered wheels lift unit over tapes so that they can be left in place
- Adjustable tow hitch fits most utility vehicles
- Removable steel plate allows for easy nail replacement

**Tow Scarifier**

**Calcium Chloride (50-lb. bag)**  
CMCC50

### Line Tapes & Nails

Active Sports stocks multiple styles of line tapes and a variety of different nails for any soft court surface. We also have lines for QuickStart.

See Page 34 for line tape and nail selections.

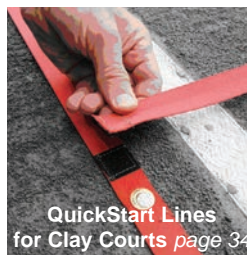

# Har-Tru Clay Courts

Har-Tru is the most popular clay court surfacing material in America. Clay court tennis leaves players more physically and emotionally satisfied than other surfaces; rallies are longer and the surface reduces stress on knees, back and lower extremities.

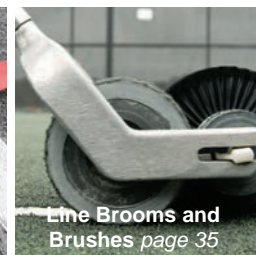

Whether you need clay material for new construction, resurfacing, or emergency repair, we can get it to you fast and save you money on freight because of the high volume of clay we ship all over the United States.

Active Sports offers **free shipping** on most clay court accessories with any Har-Tru order.

## Har-Tru

Har-Tru tennis court surfacing with binder is designed for use on clay courts with sprinkler systems.

- 50-lb. Easy-Lift bags  
(1 or 1.4 tons per pallet)
- 80-lb. bags  
(1 or 1.4 tons per pallet)

## Hydroblend

Tennis court surfacing material for sub-irrigated tennis courts.

- 50-lb. Easy-Lift bags  
(1 or 1.4 tons per pallet)
- 80-lb. bags  
(1 or 1.4 tons per pallet)

## American Red Clay

Tennis court surfacing material for use on red sub-irrigated tennis courts or for top dressing a variety of natural clay courts.

- 70-lb. bags  
(1.4 tons per pallet)

## Har-Tru Coarse Blend

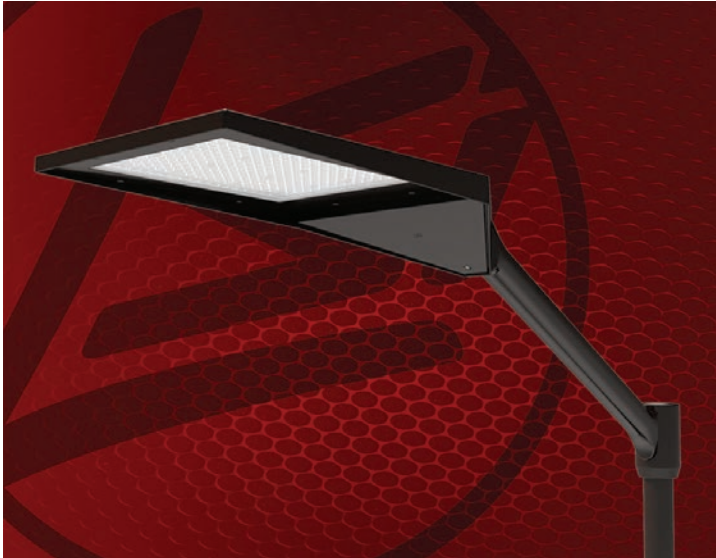

Coarse surface manufactured for indoor and outdoor sub-irrigated courts where extra coarseness and sliding material are needed.

- 75-lb. bags  
(1.3 tons per pallet)

## Clay Maintenance

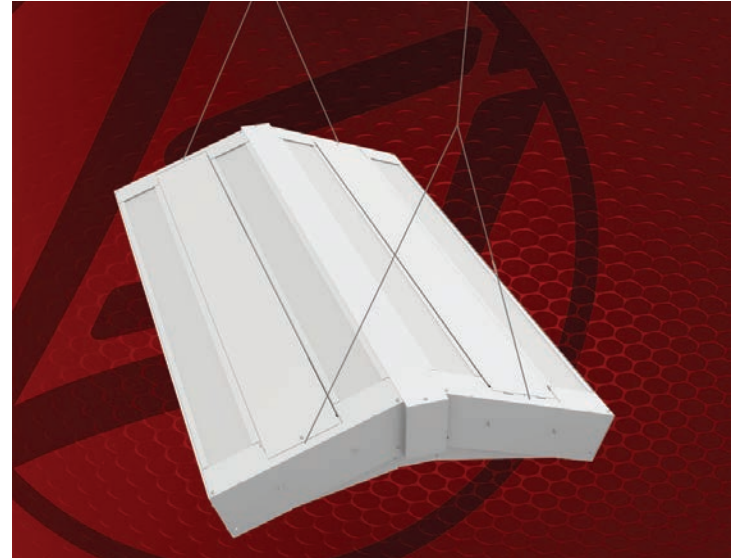

For the best playing surface, it is recommended that a clay court be resurfaced with 2 - 4 tons of material each year.

### LED CourtBlade

CourtBlade LED sports light is a game changer for court lighting applications. The low profile CourtBlade utilizes high performance LEDs and precise optics to produce superior levels of illumination and uniformity. Compared with typical HID court lighting systems, the energy load is reduced by 50%.

- The Best Possible Lumens Per Dollar
- Low Profile - Less Than 3" Thick
- 57,300 Lumens (5000K) and 56,300 Lumens (4000K)
- Up to 105 Lumens Per Watt
- Sharp Cutoff Forward Throw Distribution
- 0-10 Volt dimming option available
- Virtually maintenance free
- DLC Qualified
- 5-year warranty

### Side by Side LED Indirect Fixture

Courtsider Sports Lighting's SXS2 LED indoor fixture is a high output indirect solution for interior spaces with high ceilings – indoor tennis courts, field houses, and sports practice facilities. SXS2 offers the perfect combination of low energy consumption and high light output – up to 84,000 lumens. This fixture is excellent for retrofit and new construction in place of traditional high wattage HID fixtures.

- EXPECTED LIFE - Minimum 60,000 to 100,000 hours depending upon the ambient temperature of the installation location.
- LEDS - Features an array of closely spaced medium power LED chips; 5000K color temperature, 70 CRI or 4000K color temperature, 80 CRI.
- HOUSING - Housing is die-formed steel. Designed vertical fins serve as heat sink and resist accumulation of dust and debris. Access panel provides single-screw access to driver and wiring connections.
- OPTICAL UNIT - Featuring a slim 4" profile, housing is die-formed steel with a clear polycarbonate lens.
- DRIVER - State-of-the-art driver technology delivers superior energy efficiency and optimum light output. LSI driver components are fully encased in potting for IP65 moisture resistance.
- OPERATING TEMPERATURE - -40°C to 35°C (-40°F to +95°F)
- FINISH - Fixtures are finished with LSI's DuraGrip® polyester powder coat finishing process.
- LISTING - UL listed to UL 1598, UL8750 and other U.S. and International safety standards. Suitable for damp locations.

## Let there Be Light

Increase the hours of play on your court with a lighting system designed specifically for tennis!

*"Active Sports is an amazing organization to work with...Their superior knowledge, professionalism, and dedication in finding the right equipment and solutions for their customers' needs are unparalleled."*

Centercourt Athletic Club, Chatham, NJ

# Novacrylic Hard Courts

Novacrylic is a high performance all weather, high solids 100% acrylic coating system designed for asphalt and concrete recreational surfaces. Regarded as the best, Nova has become the surface of choice all over the world.

Additional colors and custom colors available.

## About Nova Court Surfaces

### High Performance

Its non-glare, non-fading colors are unaffected by extremes in weather or by ultraviolet rays from the sun. The non-abrasive, no-slip surface is easier on the feet and legs, and tennis balls last longer. Texture can be adjusted to achieve whatever speed or bounce desired.

### Easy Application

NovaCourt is supplied in ready-to-use 5 gallon containers that are easy to manage. Simply apply 2 coats at 90 degree to each other with a squeegee.

Call for pricing and project support

## Tennis Surfaces

**NovaCourt** Ready-to-use 100% acrylic coating system designed for do-it-yourself projects (application-ready 5 gallon buckets)

**GREAT FOR PICKLEBALL COURTS!**

### NovaCoat Combination Surface:

*Blend of NovaCoat surfacer and NovaFill texture coat.*

**NovaPlay** Ready-to-use high performance, heavy duty color coating for tennis courts subject to heavy wear (available in 5 and 30 gallon containers)

## Line Markings

**NovaTex** Textured white line paint (1 gallon per court)

**NovaLine** Non-textured white line paint (1 gallon per court)

**Seal-A-Line** Primer for sealing the edge of masking tape to ensure clean line edges (1 gallon per court)

## Preparation & Repair

**NovaSurface** 100% acrylic base coat for asphalt and concrete with use of CP761 (available in 5, 30, and 55 gallon containers)

**Nova CP761** Concrete primer (available in 5, 30, and 55 gallon containers)

**NovaBond** Patch binder and slurry base. Used to repair "birdbath" puddles and fill in voids greater than 3/16" deep. (5, 30 and 55 gallon containers)

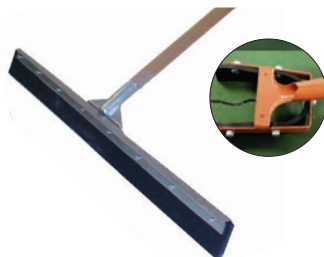

**NovaLevel** Ready-to-use acrylic paste for small areas (less than 3/16" deep) that need a lift (available in 5 and 30 gallon containers)

### Straight-Liner Plus

The fastest, easiest way to mark court boundaries for painting, this device lays masking tape lines precisely at 1", 1 1/2", 2", 2 1/2", or 3" widths. Curves and circles can be laid as easily as straight lines.

**Straight-Liner Plus**  
REDSLIP

### Applicator Squeegee

Heavy duty squeegees for applying color, surfacing, and patch material.

**24" Squeegee**  
RESQ24

**36" Squeegee**  
RESQ36

**U-Shaped Squeegee**  
RESQU

### Crack Repair/Patch

2-Part crack repair system that is premixed and pre-colored.

**Novacaulk I (10 oz tube)**  
CPNCAULK1-T

**Novacaulk I (1 gallon)**  
CPNCAULK1-1

**Novacaulk II (1 gallon)**  
CPNCAULK2-1

# Nova Court

Lower the cost of a new high quality tennis court surface with a little muscle power and go with NovaCourt! It's simple to use and available in ready-to-use 5 gallon buckets.
