

# TREE SHEAR

13420000 - EX Class

Our Extreme Tree Shear generates 30 tons of shearing force, giving the operator the ability to cut trees up to 12 inches in diameter. The NAI Tree Shear has a 1 inch thick blade made from AR400 steel and our unique design takes the guesswork out of plotting the tree fall, ensuring the tree falls to the right. We currently offer a manual and a 90 degree rotating shear.

- Durable powder coat finish
- Grease-able pin and bushings at all hinge points
- Safety steps

Cylinder (inches)	(1) 5 x 12
Max Jaw Opening (inches)	12
Blade (inches)	(1) 1.00—AR400

**Model: Rotating Tree Shear**

Product Number	13410000
Weight (lbs.)	1035

(SPECIFICATIONS SUBJECT TO CHANGE WITHOUT NOTICE)

**Model: Non-Rotating Tree Shear**

Product Number	13420000
Weight (lbs.)	870
