# About Us

The Candle Library is an Australian online marketplace that is dedicated entirely to boutique and bespoke candles.

We specialise in producing custom candles for events, weddings, retail stores, companies, day spas, hotels, brands and fashion labels. The entire process is customised to get the perfect candle to suit your needs.

We work with you each step of the way. The Candle Library has a strong focus on using premium products that are eco friendly. All of our candles are made using 100% eco Soy Wax. We use lead-free, cotton wicks and high quality, premium fragrance oils that are Australian made. Candles are produced in small batches, and each candle is individually poured by hand.

It is important to note that by using artisanal techniques in our production, there can be subtle differences between each candle - but this is normal! It is all part of our candle's charm and makes each and every candle unique. They are produced lovingly by humans, not machines.

# Step 3: Additional extras

## 1. STICKERS & LABELS

The pricing on pages 5 and 6 does not include stickers, swing tags or labelling for your candles. This is because pricing varies on each job, depending on quantity, size, paper stock & special finishes such as metallic, embossing, etc.

Pricing is charged as a one-off fee for each custom job, with pricing starting at \$95.00 per order. A quote will be provided to you.

(Note: The Candle Library does not profit off the cost of sticker/label printing. We use a third party for all printing; we then quote & charge you exactly what the printer quotes & charges us.)

Stickers, labels and/or swing tags for your candle can be completely customised and designed by The Candle Library for you. We also offer a collab label option - if you would like this option (featuring The Candle Library logo on your labelling)

We offer a \$0.75 discount per candle.

For a custom label that does not feature The Candle Library name or logo, we can design this in house for you. We discuss this with you to get a design brief for what you are after, and will provide you with emailed proofs until you are happy with the design.

*Alternatively, if you have your own design you would like for your labels, you can supply these to us or organise with your own preferred printing company.*

## 2. BOXES

The pricing on pages 5 and 6 does not include boxes for your candles. There are several options available for boxes for an additional price. We can offer plain card boxes in white or organic kraft brown for an additional \$1.20 (+GST) per unit. Please note these boxes are unbranded. We can use the sticker labels chosen for your candle on the boxing as well, or we can work on a separate label for the packaging.

(Note: a separate design may incur an additional print cost).

We also offer 'The Candle Library' cardboard boxes for an additional \$1.20 (+GST) per unit. These boxes are manufactured in Australia from 100% recycled waste paper, and are completely carbon neutral. We can use the sticker labels chosen for your candle on the boxing as well, or we can work on a separate design label for the packaging.

(Note: a separate design may incur an additional print cost).

If you were after branded, printed packaging, we can work in conjunction with our printer with you to arrange quotes. This can attract a higher fee and higher minimums as well.

## 3. LIDS

The pricing on pages 5 and 6 does not include lids for your glass jar candles. There are several options available for lids for an additional price.

We can order lids in either metal or wooden options. If you are interested in a lid, we will let you know what options are available.

As we do not carry these, we will provide customised pricing based on lid type and quantity.

Prices start from approximately \$3.00 per lid.

# Important Information

All pricing provided on pages 5 and 6 is a guideline, and could vary depending on the candle. Pricing on pages 5 and 6 strictly refers to production of a candle in the pictured glass or ceramic vessels.

Pricing does not include shipping. Shipping will be organised by The Candle Library, but customers are required to pay for the shipping.

We use a variety of couriers and Australia Post.

We use a third party printing company for all stickers and labels. At times, there can be printing delays that are out of our control. Please keep this in mind when placing your order.

Lead time for production is approximately 4 - 6 weeks from confirmation of candle design and full payment being received.

Please allow approximately 1 week for delivery (in addition to production time). For customers in remote areas and Western Australia, please allow up to 2 weeks for delivery.

Whilst we do our best to ensure this delivery schedule is met, once the order leaves our warehouse, the shipment becomes the freight company's responsibility.

Lead time on both production and shipping can be longer during peak periods, such as Christmas.

Once you have decided on your candle, an invoice will be sent to you. For orders less than 100 candles we require 100% pre-payment prior to production and shipping. For orders of 100+ candles we require 50% deposit prior to production and the balance prior to shipping.
