1 VERSATILITY
Lightweight, collapsible and stackable, these crates will corral the odds and ends that are cluttering up your cabin. Use one to collect weeds from the garden, then flatten it for easier storage. **Clever Crates, \$10–\$20, www.clevercrates.com**

2 SECRET STORAGE
The gap between an open door and the wall behind it often becomes wasted space. Use every square inch while stashing cabin necessities like sunscreen, bug spray and beach towels within easy reach. **Cabidor, \$130–\$250 (sizes vary), www.cabidor.com**

3 REMOVE YOUR BOOTS
Does your cabin's entry-way closet get congested when everyone returns from a winter sledding excursion? Keep boots happily paired and off the floor with this hanging rack. **Boot Butler, \$50, www.bootbutler.com**

4 RAISE IT UP
Create more room in your cabin garage or shed by storing large items like ladders, bicycles and weed trimmers up on the wall. These arms hold 50 pounds each, and they can be folded back against the wall when not in use. **HangerJack Gator 24, \$30, www.hangerjack.com**

5 DURABILITY & UTILITY
Stackable totes are great for storage, but contents at the bottom of the pile can be hard to get to. Clear, hinged side doors allow you to see and access the contents without disturbing the stack. **Rubbermaid All Access Organizers; starting at \$26 for two, www.rubbermaid.com**

6 BATHROOM BUDDY
This caddy tucks inside your bathroom vanity door, creating a dedicated space for a hair dryer, styling tools or any other things that normally clutter the counter. **Spectrum myBella Over the Cabinet Styling Center, \$20, www.spectrumdiversified.com**

7 PACKING MADE EASY
When you finally get to the cabin, simply hang your rolling luggage in a closet and expand. You'll spend less time unpacking and more time soaking up sun on the cabin deck. **Rise Roller, \$199, www.risegear.com**

8 DIY SMARTER
A one-hour maintenance project can quickly turn into a half-day chore if you have to keep running back to the garage to find the right tools. Keep all of your DIY essentials in one place and tote them to your work site. **DEWALT TSTAK Trolley (box organizers sold separately), \$130, www.dewalt.com**
