

CORNUCOPIA IS THE GREATEST FOOD FOR PETS IN THE HISTORY OF THE WORLD

They call him
"The Reincarnation
of Hippocrates"

Doc calls it "Pumpkin Heart." The FDA calls it *Canine Dilated Cardiomyopathy* and blames it on the grain-free scam. Cornucopia has prevented and treated this now epidemic disease for decades. The disease, along with other common diseases that continue to baffle veterinary medicine's standard of care, is **non-existent with pets fed Cornucopia.**

Dr. R. Geoffrey Broderick is the most famous veterinarian in the world.

We are a family operated practice and have been in Huntington, N.Y., for fifty years. We are open 365 days a year. We give preventative education, treatment and care. When you bring your new puppy or kitten home, you do NOT need to immediately run to your nearest/local veterinarian, and follow CONVENTIONAL PROTOCOLS. You do NOT need to rush the vaccination process, nor the necessity to spay or neuter your baby pet and damage its natural hormonal growth and immune system.

Rather, today, you can take your beloved pets, no matter what their ages or problems are, to a **Veterinary Nutritionist.** With a proven track record spanning fifty years, Dr. Broderick knows what is best for your companion animal and is a *teacher* of how to safely *prevent* disease.
