- **Keller Barber Chairs are some of the most reliable, modern, affordable, and heavy duty barber chairs on the market.**
- **Durable chrome bases and pumps can hold up to 450 lbs, so you can lift your clients with ease, and smoothly recline them for the perfect shave.**
- **When buying barber chairs online, you must be cautious of cheap imitations with flimsy bases.**
- **When reclining for shaving, you need a base that will support the weight and stress on the barber chair. See page 4 for more details about the Hydraulic Base and Upgrades.**

See more details on these bases at www.kellerinternational.com – on the parts page.

- **Dual reclining levers are located on both sides of the Barber Chair.**
- **The Barber Chair reclines about 60° to make it convenient for shaving.**
- **The Footrest rises as the Barber Chair is reclined - for client comfort.**
- **The massive hydraulic base system and rugged chair design will last for years.**
- **This Barber Chair comes in either a Dark Grey or Black color.**
- **This overstuffed Euro style barber chair features gray Italian PVC vinyl with rich dark wood armrests (see page 5) and accent strips.**

**Dark Gray
Side View**

- **The headrest has an “infinite” number of positions because of the wedging rollers at the bottom of the rectangular shaft.**
- **Just pull UP on the headrest to whatever height is desired and let go – the headrest will stay in that position until a lever is lifted to lower the headrest.**
- **The headrest can also be completely removed from the Barber Chair.**
