

## MILAN & ALLURE INFO *(Milan shown)*

**NOTICE: The Milan & Allure have NO Discharge pump.** If you need a discharge pump, we suggest using the *Saniflo Sani-Shower™* available on Amazon. The *Saniflo Sani-Shower™* is an external discharge pump and used in many salons.

All Keller International pedicure spas use what's known as a Magnetic Jet which are popular in the Salon / Pedicure industry. Magnetic Jets are easy to clean as the only part that needs cleaning is the "Face" (commonly known as the "Wet-End").

Below is shown the "Wet-End" that is ready for cleaning.

**PRO-TIP:** Having multiple "wet-Ends" clean and ready to use will provide a much faster turn around time.
