

About Us

Follow @4rails

4rails.com is a division of Commercial Finished Metals Corporation, headquartered at 2020 Maple Hill Street, Suite 456, Yorktown Heights, New York with fabrication facilities in New York, California and Ontario, Canada.

We design, manufacture and assemble virtually anything made of metal with a focus on foot rails, handrails, public guidance and hospitality products. That's what we do and that's all we do!

Public guidance and hospitality includes many items for homes, restaurants, hotels, casino, shopping centers, sports arenas, marine applications and more. For example, food displays, food shields, cart corrals, glass partition posts and balcony railings.

The first thing you may notice when speaking with us is that we focus on solutions not sales. A product specialist not a sales person will assist you to make certain that the products you choose will work for your application. Our expertise is simply delivering high quality stock and custom metal products that offer superior value.

Whether your requirements are basic or complex, we can provide the right product for virtually any job. Our courteous staff will ask the right questions and help you to understand how we can meet your needs.

Commercial Finished Metals Corp. is specified by the nation's leading interior designers and architectural firms. Call 877-747-2457 to speak with a product specialist today.
