USE THE FOAMER AS AN INDEPENDENT UNIT

Perfect Moose Jack stands on its own. Equipped with a boiler at the back, this solitary Moose works completely independently.

Foamer Jack can be placed wherever you like but his favourite spot is next to your rincer.

Best way to start quality foaming is always with a cool & clean smart jug.

When counter space is tight, you can detach the water heater and place it in the vicinity of the frother.

Colour options	Mat black Mat white
Standard accessories	1 x White pitcher 50 cl 1 x Black pitcher 50 cl 1 x Green pitcher 50 cl (all including a RFID tag recipe) installation kit
Dimensions appliance	W 120 x H 620 x D 350 (mm) W 4,724 x H 24,409 x D 13,78 (inches)
Weight appliance	Net 12,7 kg Gross 16,7 kg (for transport)
Power appliance	40 watts
Dimensions boiler	W120 x H620 (598) x D140 (mm)
Jack's Backpack	W 4,724 x H 24,409 (23,543) x D 5,511 (inches)
Weight boiler	Net 7,3 kg Gross 8,8 kg (for transport)
Power boiler (W)	2400 watts
Electrical power supply	200-230V / 50-60 Hz/1ph
Power combination appliance + boiler	40 + 2400 = 2440 watts
Water drainage	Yes (small amounts of steam condensation)
Water supply	Water connection needed (filter connection necessary)
