DiY OVEN CLEANING

— INGREDIENTS —

1 cup of water

2 cups of baking soda

2 cups of lemon juice

Silicone brush to spread mixture

Cleaning Cloth

Bowl

INSTRUCTIONS

1. Remove your oven racks, pizza stone, oven thermometer, and anything else you have inside the oven. Set aside.

2. In a small bowl, mix 2 cups of baking soda, 2 cups of lemon juice, and 1 cup of water.

3. Spread the paste all over the interior surfaces of your oven, steering clear of the heating elements.

4. Allow the baking soda mixture to sit and soak for at least 30 minutes.

5. Take a damp dish cloth and wipe out the remaining baking soda mixture.

6. Replace the oven racks and anything else you keep in your oven, and you're done!
