## Palmero Healthcare’s Product Updates

### DisCide® Ultra Disinfectant Kill Claims & Refreshing Facial Wipes Upgrades

**Stratford, CT:** Palmero is very proud to announce our approved and expanded kill claims for our popular disinfectant – **DisCide® ULTRA**. DisCide ULTRA is a one-step, quaternary ammonium, intermediate, high-level alcohol-based disinfectant that’s laboratory-proven to kill deadly pathogens in one minute or less. Palmero’s DisCide ULTRA disinfecting towelettes and DisCide ULTRA disinfecting spray meet stringent federal EPA standards. They’re also FDA approved, EPA registered, and meet OSHA’s requirement of Bloodborne Pathogen Standard 29 CFR 1910.1030.

Adding to the excitement, we’ve just released and enhanced our **Refreshing Patient Facial Wipes**. Our new, softer towelette sheets are formulated with Vitamin E and natural oils, as well as a calming Lavender scent. Our facial wipes are a great refresher for you, your patients, and staff in any professional, recreational, or home setting!
