

GUARDLAB INC'S LIMITED WARRANTY

A GuardLab APEX™ Boil & Bite, Pro Custom or Arc Pro Upper mouthguard offers protection against sporting injuries to the wearer's upper teeth. Each GuardLab mouthguard is backed by our 1-year LIMITED WARRANTY. GuardLab warrants that its mouthguard is free from defects in materials and workmanship and that it should prevent damage or injury to sound, natural teeth of the original purchaser hereof, when properly fitted and worn during use for the activities it was purchased. In the unlikely event of an accidental tooth loss or other dental related injury, while properly wearing your GuardLab mouthguard, you may submit a claim toward the cost of remedial dental treatment by a properly licensed dental professional. This LIMITED WARRANTY covers the actual dental expenses incurred, up to a maximum of \$10,000 for an Apex™ Boil and Bite, \$15,000 for a Custom Pro and \$25,000 for an Arc Pro Upper mouthguard, (less a \$100.00 deductible administrative fee), per incident. GuardLab's obligations hereunder shall be reduced by the amount of any insurance or litigation recovery payments that the user may receive, for the damage or injury. This LIMITED WARRANTY is effective for 12 months from the date of purchase of your GuardLab mouthguard. Certain additional exclusions apply. Please contact info@guardlab.com to obtain a copy.

NO WARRANTY is provided for GuardLab Apex™ mouthguard for any damage or injury incurred when worn for participation in a combat activity where the organization involved or business hosting the activity REQUIRES that a properly fitted mouthguard be worn as is the case, e.g. for many football, lacrosse, hockey and other sports and for martial arts, boxing or other such activities. GuardLab offers the BEST available, properly fitted ARC Pro neuromuscular, PRO and Home Impression Kit mouthguards. Information on those properly fitted mouthguards and how and where to purchase them is available at www.guardlab.com.

- Do not use try to fit the GuardLab mouthguard over braces by yourself. We advise you to consult with a dentist first.
- Avoid situations where inhalation or swallowing of the mouth guard could occur.
- Do not stretch the material. This may thin out the material and decrease the strength of the mouth guard.
- Do not overheat the mouth guard (over 170 degree F) or leave it in direct sunlight, near heat sources or other overheating environments, like on car dashboards for extended periods of time as this might deform or degrade the material.
- Do not clean the mouth guard in your dishwasher or washing machine, since this could lead to deforming and weakening of the material.
- Follow the instructions regarding pre and post-use cleaning and storage. GuardLab offers a mouthguard cleaning spray for purchase at guardlab.com/mouthguard spray, which is recommended for cleaning before and after use. GuardLab recommends that you keep your GuardLab mouthguard in its container with plain water for storage. GuardLab offers replacement storage containers which can be purchased at guardlab.com
- Regularly inspect your GuardLab Mouthguard as, over time, your mouthguard may begin to wear out, become loose or thinned, cracked, with holes from use. **A worn-out mouthguard may fail to protect your teeth when you need it most.**
