FALLON TAYLOR

Exclusive Low Profile / Signature Designs

Now available
in XS and XL

"When you ride a bike, motorcycle, go snowboarding or do other wild things, people don't look at you like you are crazy for wearing a helmet. We ride 1200 pound animals on hard ground....think about it, it doesn't seem all that crazy to wear one."

Helmet Covers

Troxel helmet covers are the perfect solution for creating a show look, protecting helmets from everyday use, and providing protection against inclement weather. All covers have a universal fit.

70-035 Winter Headliner

Winter Headliner

Troxel's winter headliner keeps your head and ears warm while riding. Simply remove your existing headliner and replace it with the winter headliner. One size fits all.

70-140 Helmet Bling

Helmet Bling

Customize your helmet with TroxeL's Helmet Bling Package. 450 self-stick embellishments add glitz and sparkle.

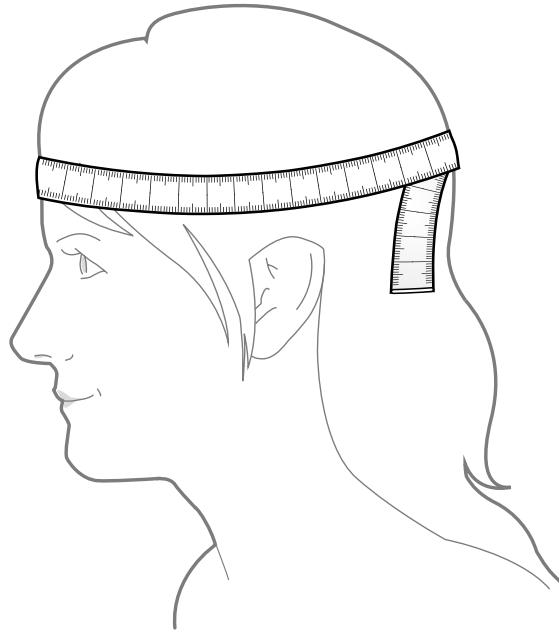

HELMET SIZE GUIDE

How to choose your helmet size.

1

Measure

Use a measuring tape to measure around your head one inch above your eyebrows. Or use a string to measure and then lay it out and measure the length of the string.

2

Choose Size

Use this chart to convert measurement to hat size.

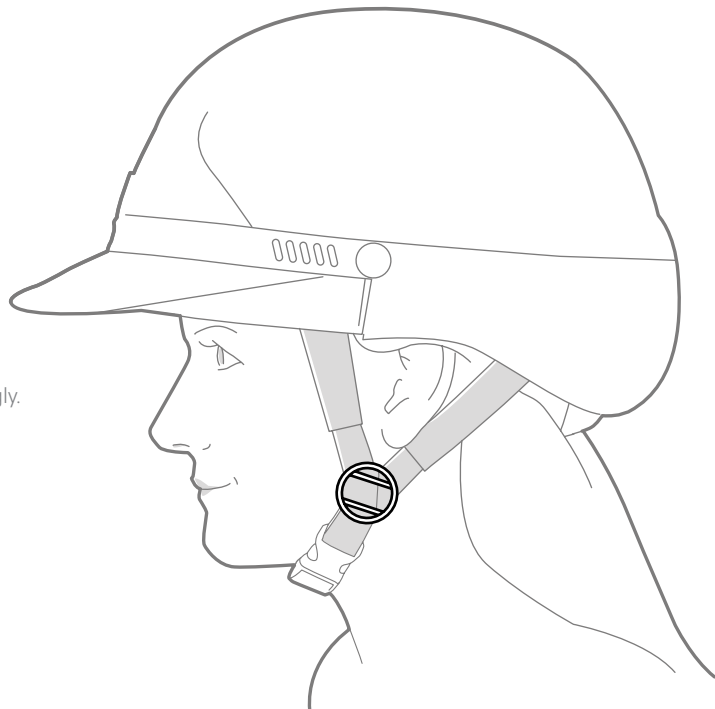

Head Size (inches)	19 ^{5/8}	20	20 ^{3/8}	20 ^{3/4}	21 ^{1/4}	21 ^{5/8}	22	22 ^{3/8}	22 ^{3/4}	23 ^{1/8}	23 ^{5/8}	24	24 ^{3/8}
Head Size (centimeters)	50	51	52	53	54	55	56	57	58	59	60	61	62
Hat Size	6 ^{1/4}	6 ^{3/8}	6 ^{1/2}	6 ^{5/8}	6 ^{3/4}	6 ^{7/8}	7	7 ^{1/8}	7 ^{1/4}	7 ^{3/8}	7 ^{1/2}	7 ^{5/8}	7 ^{3/4}

Disclaimer: This conversion chart is a guide only and does not constitute a guarantee as to the fit of the helmet. Some people may have a unique head shape changing what size they need. Some helmets fit different shaped heads better than others.

3

Select Your Helmet

Select the helmet model you would like to purchase and review the specific size range available and order accordingly.

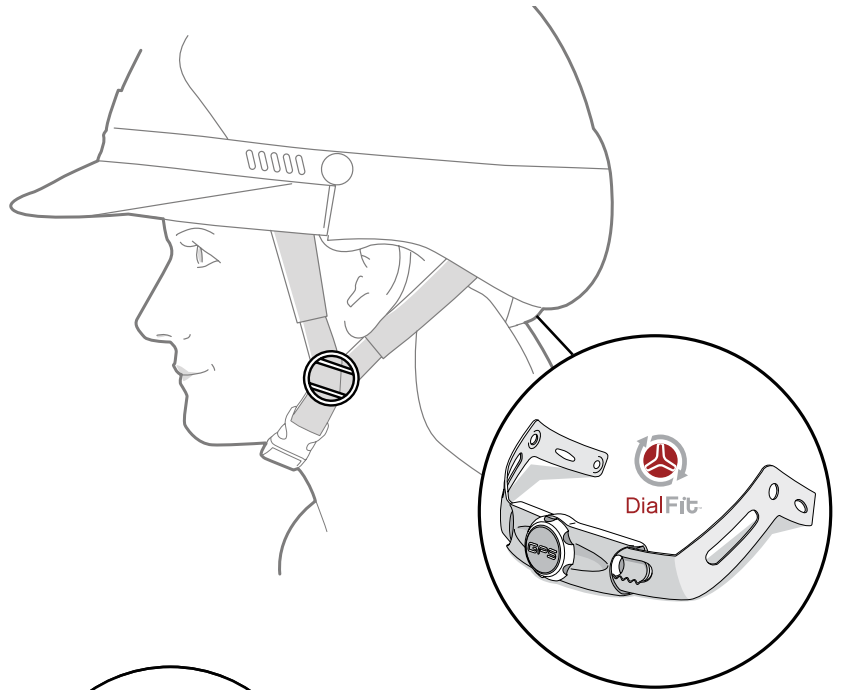

FIT YOUR HELMET IN 3 EASY STEPS

1

Try

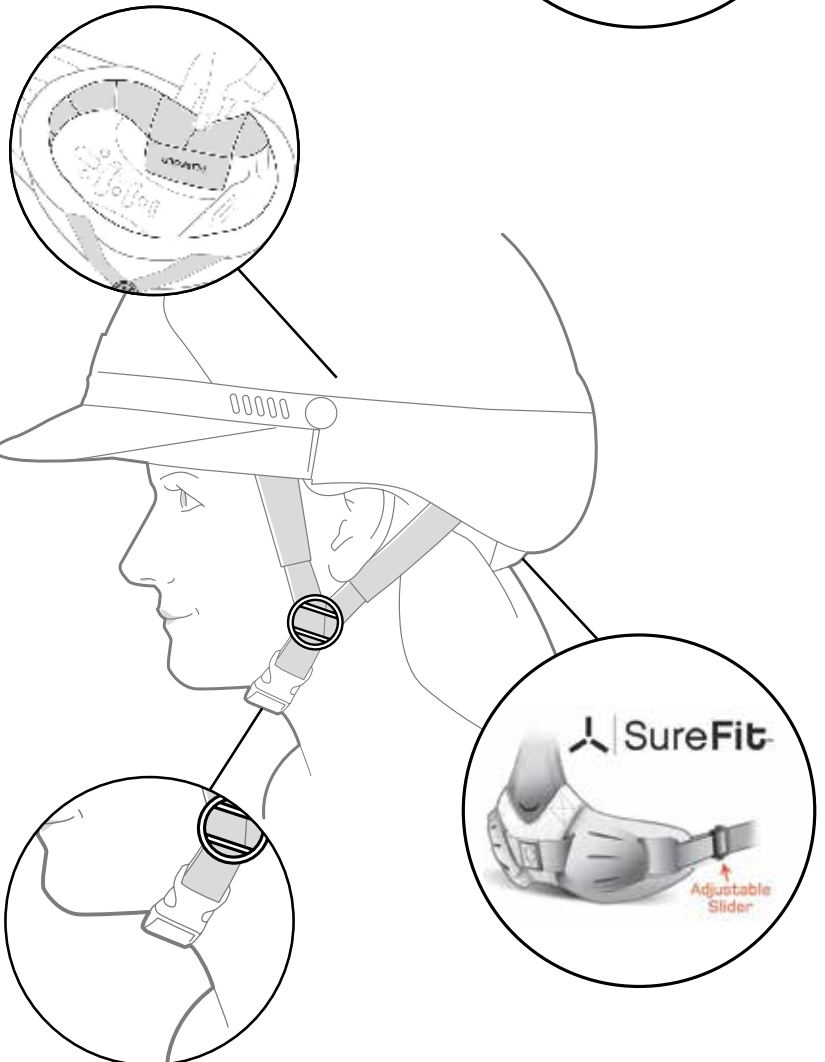

- A) Open the DialFit if the helmet comes with this feature.
- B) Try on the helmet. It should fit snug but not be uncomfortable.

2

Adjust

- A) Adjust the inner padding by folding under the FlipFold™ tabs for more or less cushion.
- B) Adjust the slide glides on the straps to sit underneath your ears to form a "V".
- C) Adjust the length of the retention system straps to fit snug under your jaw and use the o-rings to secure the excess.
- D) To fine tune your fit, engage the DialFit or adjust the slider of the elastic bands on the SureFit™.

3

Check

- With your helmet level on your head, check the fit and straps and make sure the buckle is locked securely.

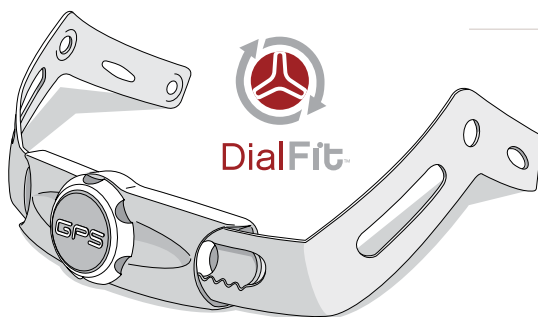

FIT & COMFORT SYSTEMS

Adjustable fit systems provide customers with the opportunity to quickly customize fit. Advantages include: lower inventory requirements and additional helmet room to accommodate unique head shapes and various hair styles.

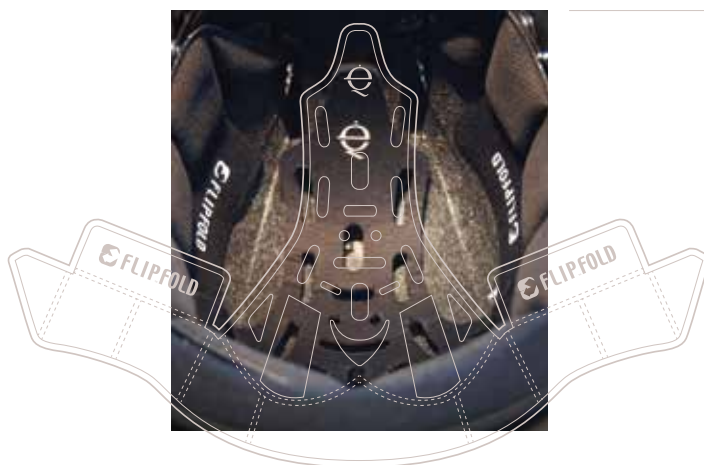

SureFit™ System

The SureFit™ incorporates elastic straps that self-adjust to the size and shape of the rider's head. With ultra-plush padding the SureFit™ provides an unmatched level of comfort and stability. Available in the SureFit™ Elite with leather and flocking trim and the SureFit™ Pro.

DialFit System

The soft-touch dial permits quick and precise helmet adjustment.

FlipFold™ System

The FlipFold™ System is part of the headliner. Adjustments are made by simply folding over the integrated tabs making the padding thinner or thicker to accommodate various head shapes and hairstyles.
