FIT YOUR HELMET IN 3 EASY STEPS

1 Try
A) Open the DialFit™ if the helmet comes with this feature.
B) Try on the helmet. It should fit snug but not be uncomfortable.

2 Adjust
A) Adjust the inner padding by folding under the FlipFold™ tabs for more or less cushion.
B) Adjust the slide glides on the straps to sit underneath your ears to form a "V".
C) Adjust the length of the retention system straps to fit snug under your jaw and use the o-rings to secure the excess.
D) To fine tune your fit, engage the DialFit™ or adjust the slider on the elastic bands of the SureFit™.

3 Check
With your helmet level on your head, check the fit and straps and make sure the buckle is locked securely.

All Troxel Helmets are ASTM/SEI certified.
