

NEW VIRUSTRON

THE LUMINOUS STERILIZER FOR MAXIMUM EFFECTIVENESS

- VERY POWERFUL UV LIGHT DEVICE
- Able to sterilize home environments with an efficiency of 99.99%, much higher than the traditional manual methods used by South African families.
- Made up of quartz material, offering a longer life, high transmission speed, better sterilizing effect. Effective against bacteria, viruses in the air and mites. It will even remove mould!

THE POWER OF LIGHT

- Black colour
- Material: quartz tube + aluminium-magnesium alloy + stainless steel
- Input voltage: DC5V
- Charging interface: Micro USB
- Battery type: built-in 3.7V 500mAh polymer battery Mode: UVC + O3
- Operating time: 15 minutes to 60 minutes
- Ultraviolet wave: 185-254nm

WHY USE UVC?

Ultraviolet germicidal radiation (UVC), is a sterilization method that uses ultraviolet (UV) light at the UV-C wavelength, which modifies the DNA or RNA of microorganisms and therefore prevents them from reproducing or being harmful.

It is used in a variety of applications, for example the disinfection of food, water and air.

The wattage capacity of the various versions is perfect for rooms up to 40m², such as living rooms, bedrooms or closets.

THE POWER OF OZONE

The VIRUSTRON in addition to ultraviolet light, produces Ozone which sterilizes blind spots where light cannot reach.

However, it is recommended not to leave the appliance on for more than 15 minutes at a time and to ventilate the space where it has been used for 60 minutes after use.

360° EFFECTIVENESS

Unique design: uses the light of the UVC sterilizer, with a 360° angle, completely eliminates odours and dust particles, effectively improves your living environment.

Can be widely used in the home, cars, closets, kitchen, refrigerator, an any environment where our beloved 4-legged companions are present.

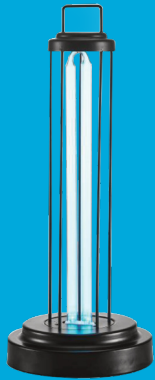

CONTROL THE FITTING WITH A REMOTE

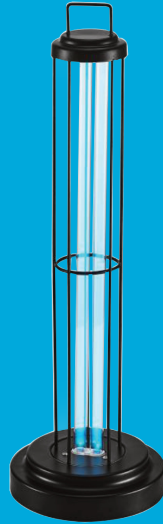

VIRUSTRON is equipped with a remote control with which the sterilizing action can be programmed.

Perfect if you want to be away from the exposure of UV and ozone. It allows you to control the device from a distance or from another area of the house.

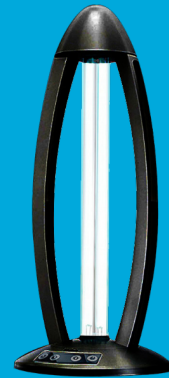

NEW VIRUSTRON

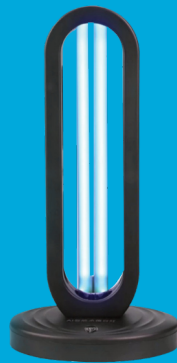

VIRUSTRON 1
36W
Ø190 x H.460
20m² COVERAGE

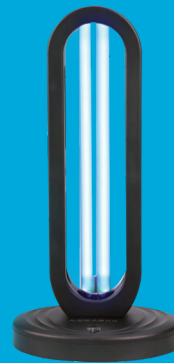

VIRUSTRON 2
60W
Ø190 x H.600
25m² COVERAGE

VIRUSTRON 3
38W
W.210 x H.460 x D.210
40m² COVERAGE

VIRUSTRON 4
38W
Ø200 x H.400
25m² COVERAGE

VIRUSTRON 4L
38W
Ø200 x H.400
