

Product Name: Lanai Diffuser & Diffuser Refill Product Item Number: 2015017250 / 2015217258

Concentration (% w/w)	Ingredient Name	CAS#
6.00%	Dipropylene Glycol Monomethyl Ether	34590-94-8
19.00%	Dipropylene Glycol Methyl Ether Acetate	88917-22-0
56.7024%	Diethylene Glycol Ethyl Ether	111-90-0
18.2976%	Pineapple Ginger Base for AromaReed Mod	Mixture

# ARCHIPELAGO

## Safety Data Sheet

Revision date:15 April 2020Print date:15 April 2020Version:Rev 1

## 1. Product and Company Identification

1.1	Product identifiers	
	Product Name	Lanai Diffuser & Diffuser Refill
	Producer	Archipelago Botanicals
	Product Number	2015017250 / 2015217258
	CAS-No.	Mixture
1.2	Identified uses of the product	and uses advised against
	Identified Uses	Fragrance/Consumer Product
1.3	Details of the chemical suppli	er
	Company	Archipelago Botanicals

## Telephone:

Address

#### 1.4 Emergency phone number

Emergency phone number

+1 (703) 527-3887 (CHEMTREC) +1-800-424-9300 (CHEMTREC)

1548 18th St, Santa Monica,

CA 90404, USA

### 2. Hazards Identification

#### 2.1 Classification of the substance or mixture GHS Class Combustible L

Combustible Liquid, Category 4 Skin corrosion/irritation, Category 2 Eye damage/ irritation, Category 2A Skin sensitization, Category 1 Aspiration hazard, Category 1 Suspected of causing genetic defects

#### 2.2 GHS Label elements, including precautionary statements GHS Pictograms

Signal word Hazard statements	Warning H227 – Combustible liquid
	H315 – Causes skin irritation H317 – May cause an allergic skin reaction
	H319 – Causes serious eye irritation
	H341: Suspected of causing genetic defects
	H373: May cause damage to organs through prolonged or repeated exposure
Precautionary statements	Precautionary statement(s) P261 Avoid breathing dust/ fume/ gas/ mist/ vapours/ spray. P264 Wash skin thoroughly after handling. P271 Use only outdoors or in a well-ventilated area. P272 Contaminated work clothing should not be allowed out of the workplace.

P280Wear protective gloves/ eye protection/ face protection. P302 + P352 IF ON SKIN: Wash with plenty of soap and water. P304 + P340 IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P312 Call a POISON CENTER/doctor if you feel unwell. P321 Specific treatment (see supplemental first aid instructions on this label). P333 + P313 If skin irritation or rash occurs: Get medical advice/ attention. P337 + P313 If eye irritation persists: Get medical advice/ attention. P362 Take off contaminated clothing and wash before reuse. P403 + P233 Store in a well-ventilated place. Keep container tightly closed. P501 Dispose of contents/ container to an approved waste disposal plant

#### 2.3 Hazards not otherwise classified (HNOC) or not covered by GHS - None

#### 3. Composition/Information on Ingredients

3.1	Product mixture			
	Formula	No data availab	ole; mixture	
	Molecular wt	Mixture

	Linalool		78-70-6	Proprietary
1	Name Cinnamal Phenylethyl Alcoh Naptha, petroleum, hydrotru Orange oil terpen Eugenol	nol eated heavy	104-55-2 60-12-8 64742-48-9 68647-72-3 78-70-6	Proprietary Proprietary Proprietary Proprietary Proprietary

Remarks

Total Hydrocarbon Content (% w/w) = 10.03

#### First Aid Measures 4.

4.1	Description of first aid measures			
	General advice	Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible).		
	Skin contact Remove contaminated clothes. Wash thoroughly with water (and soap). Con symptoms persist.			
Eye contact Flush immediately with water for at le		Flush immediately with water for at least 15 minutes. Contact physician if symptoms persist.		
	Inhalation	Remove from exposure site to fresh air and keep at rest. Obtain medical advice.		
	Ingestion	Rinse mouth with water and obtain medical advice.		
4.2	Indication of any immediate medical attention and special treatment needed			
	Other first aid	Treat symptomatically.		

#### **Fire Fighting Measures**

5.1	Suitable (and unsuitable) extinguishing media Suitable extinguishing media Carbon Dioxide, dry chemical, foam. Do not use a direct water jet on burning material.			
5.2	Special hazards arising from t Special hazards	m the substance or mixture Hazardous decomposition products: Carbon oxides.		
		Do not enter fire area without proper protective equipment, including respiratory protection. Wear NIOSH approved self-0contained breathing apparatus and full protective clothing when fighting fires involving chemicals. Use spray water to cool containers exposed to fire.		

6.	Accidental Release Measu	ires			
c 4					
6.1	Personal precautions, protect Personal precautions	ive equipment, and emergency procedures Avoid inhalation and contact with skin and eyes. A self-contained breathing apparatus is recommended in case of major spill.			
6.2	Environmental precautions Environmental precautions	Prevent entry to soil, sewers and public waters. Notify authorities if liquid enters sewers or public waters.			
6.3	Methods and materials for cor	ntainment and cleaning up			
	Methods for cleanup	Remove ignition sources. Provided adequate ventilation. Avoid excessive inhalation of vapors. Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Collect spillage.			
6.4	References to other sections				
	Other references	For disposal see section 13.			
7.	Handling and Storage				
7.1	General hygiene consideration	ns			
	General hygiene	Wash hands thoroughly after handling. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reuse.			
7.2	Precautions for safe handling				
	Safe handling precautions	Apply according to good manufacturing and industrial hygiene practices with proper ventilation. Do not eat, drink or smoke while handling.			
7.3	Conditions for safe storage, ir	ncluding any incompatibilities			
	Other storage conditions	Store in the original container in a cool, well ventilated place away from heat sources. Keep container tightly closed. Protect from light. Keep air contact to a minimum. Avoid plastic and uncoated metal containers.			
0					
8.	Exposure Controls/Persor	Tal Protection			
8.1	Control and exposure limits re	ecommended by the chemical manufacturer			
	OSHA Standards	Not available – not determined			
	Threshold Limit Values	Not available – not determined			
	NIOSH Recommendations	Not available – not determined.			
8.2	Appropriate engineering contr	rols			
rooms and other areas where fragrances are openly inhalded and maintain the negative air pressure relative to the rest of the plane. Use local exhaust ventila design criteria around tanks and other sources of potential exposures, includin fragrances are openly weighted and measured, as well as general dilution ven		Where ever possible used closed systems to transfer fragrances. If appropriate, isolate mixing rooms and other areas where fragrances are openly inhalded and maintain these areas under negative air pressure relative to the rest of the plane. Use local exhaust ventilation meeting ACGIH design criteria around tanks and other sources of potential exposures, including places where fragrances are openly weighted and measured, as well as general dilution ventilation of the work area to eliminate or reduce possible working exposures.			
8.3	Individual protection measure	s, such as personal protective equipment			
	Respiratory protection	For manufacturing quantities: where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multipurpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).			
	Eye/face protection	For manufacturing quantities: safety glasses with side-shields conforming to EN166 are recommended. Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166 (EU).			
	Hand protection	For manufacturing quantities: handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and			

 Body protection
 laboratory practices. Wash and dry hands.

 For manufacturing quantities: wear impervious clothing. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

#### 9. Physical and Chemical Properties

#### 9.1 Information on basic physical and chemical properties

a)	Appearance	Yellow Liquid
b)	Odor	Variable
c)	Odor threshold	No data available
d)	рН	4.0 - 5.0
e)	Melting/freezing point	No data available
f)	Boiling point	No data available
g)	Flash point	67°C
h)	Evaporation rate	No data available
i)	Flammability (solid, gas)	Combustible liquid
j)	Upper/lower flammability or explosive limits	Upper (UEL): No data available Lower (LEL): No data available
k)	Vapor pressure	0.1249 mmHg@20C
I)	Vapor density	No data available
m)	Relative density	0.959
n)	Water solubility	No data available
o)	Partition coefficient octanol/water	No data available
p)	Auto-ignition temp	No data available
q)	Decomposition temp	No data available
r)	Viscosity	No data available

#### 10. Stability and Reactivity

#### 10.1 Reactivity Reactivity No data available 10.2 **Chemical stability** Chemical stability No data available. 10.3 Possibility of hazardous reactions Hazardous reactions Presents no significant reactivity hazard, by itself or in contact with water. 10.4 Conditions to avoid Conditions to avoid Direct sunlight. Extremely high or low temperatures. Open flame. Overheating. Heat. Sparks 10.5 Incompatible materials Incompatible materials Avoid contact with strong acids, alkali or oxidizing agents. 10.6 Hazardous decomposition products Carbon oxides. Unidentified monoxide. Carbon dioxide. Hazardous products

### **11. Toxicological Information**

#### 11.1 Information on toxicological effects

Acute toxicity	
Acute oral toxicity	May be harmful if swallowed or if aspirated into the lungs 60-12-8 Phenylethyl alcohol (LD50 = 2500 mg/Kg) 64742-48-9 Naphtha, petroleum, hydrotreated heavy (LD50 = >10000 mg/Kg) 68647-72-3 Orange oil terpenes (LD50 = >5000 mg/Kg)
Acute dermal toxicity May be	harmful if absorbed through the skin. 104-55-2 Cinnamal (LD50 = 1100 mg/Kg)
Acute inhalation toxicity	No data available
Skin corrosion/irritation	
Skin corrosion irritation	Causes skin irritation.
	104-55-2 Cinnamal 68647-72-3 Orange oil terpenes 78-70-6 Linalool.

#### Serious eye damage/eye irritation

Eye damage/eye irritation Causes eye irritation. 104-55-2 Cinnamal.

Respiratory or skin sensitization				
Respiratory sensitizer	May cause an allergic skin reaction.			
Skin sensitizer	May cause allergic skin reaction. 104-55-2 Cinnamal 68647-72-3 Orange oil terpenes 97-53-0 Eugenol.			
Germ cell mutagenicity				
Mutagenicity	Suspected of causing genetic defects 104-55-2 Cinnamal			
Suspected cancer agent				
ACGIH	No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen.			
NTP	No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen.			
OSHA	No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen.			
IARC	No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen.			
Reproductive toxicity				
Reproductive toxicity	No data available.			
Aspiration hazard				
Aspiration hazard	No data available.			

#### 12. Ecological Information

12.1	Ecotoxicity (aquatic and terrestrial)				
	Ecotoxicity	No data available.			
12.2	Persistence and degradabil	Persistence and degradability			
	Degradability	No data available. While no specific environmental toxicity or related data is available, compositions are not expected to accumulate in the environment and environmental problems are not expected under normal conditions of use.			
12.3	Bioaccumulation potential				
	Bioaccumulation	No data available			
12.4	<b>Mobility in soil</b> Mobility in soil	No data available.			
12.5	Results of PBT and vPvB assessment         PBT/vPvB assessment       Not available as chemical safety assessment not required/not conducted.				

## 13. Disposal Considerations

#### Waste treatment methods 13.1 Waste treatment disposal

Waste disposal must be in accordance with appropriate Federal, State, and local regulations. Avoid disposing into drainage systems and into the environment.

#### 14. Transport Information

 <b>DOT</b> Transport document description	Class : Not Regu	Pack Group Ilated - Not Dangero	Sub Risk us Goods	UN-nr.
<b>TDG</b> Environmentally Hazardous Substance, Liquid, n.o.s.	9	III		UN3082
IMDG Environmentally Hazardous Substance, Liquid, n.o.s.	9	Ш		UN3082
ΙΑΤΑ				
Environmentally Hazardous Substance, Liquid, n.o.s	9	Ш		UN3082

#### 15. Regulatory Information

#### 15.1 Safety, health, and environmental regulations specific to the product or mixture

SARA 302	2 Components	No chemicals in this material are subject 302.	ct to the reporting r	equirements of SARA Title III, Section	
SARA 313 Components		This material contains the following chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.			
Chemica	Class		CAS#	Concentration (% by wt)	
Diethylene glycol monoethyl et		er (2-(2-Ethoxyethoxy) ethanol)	111-90-0	40 -50%	
TSCA		This product contains the following chemical substances subject to the reporting requirements of TSCA 12(b) if exported from the United States: None.			
Canada DSL		99.94% of the components of this fragrance product are found on the Canadian DSL. The following			
		ingredients are not found.			
Status	Chemical Class		CAS#	Concentration (% by wt)	
NDSL	Decanedioic acid, ester, reaction pr	1,10-bis(2,2,6,6-tetramethyl-4-piperidinyl)	129757-67-1	0.01-0.1%	
CA Prop. 65 Components		This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.			

#### 16. Other Information

HMIS Rating	Health hazard: 2 Flammability: 2 Physical Hazard 0
NFPA Rating	Health hazard: 2 Fire Hazard: 2 Reactivity Hazard: 0
Revision Date	15 April 2020

The information contained herein is based on data considered accurate. However, no warranty is expressed or implied regarding the accuracy of these data or the results to be obtained from the use thereof. Archipelago Botanicals assumes no responsibility for injury to the vendee or third persons proximately caused by the material if reasonable safety procedures are not adhered to as stipulated in the data sheet. Additionally, Archipelago Botanicals assumes no responsibility for injury to vendee or third persons proximately caused by the material if reasonable safety procedures are not adhered to as stipulated in the data sheet. Additionally, Archipelago Botanicals assumes no responsibility for injury to vendee or third persons proximately caused by use of the material even if reasonable safety procedures are followed. Furthermore, vendee assumes the risk in his use of the material.
