Student Programs

Students should expect their interactions with their school community to leave them feeling accepted for who they are. unlearn challenges students to think critically about their unconscious biases and examine how they can be reinforced by the media, their experiences and their relationships.

Our workshops provide students with the tools and skills to analyze the validity of information and the context of their assumptions.

All unlearn Student Programs are designed to engage youth with access to rich learning experiences which establish a strong foundation for the development of Global Competencies.

unlearn Student Programs were formulated to help schools meet the objectives of *Ontario's Equity and Inclusive Education Strategy*.

Workshop Focus Areas:

- Social Justice & Human Rights
- Anti- Bullying & Unconscious Bias
- First Nations, Metis and Indigenous Peoples
- Equity, Inclusion & Diversity
- Privilege, Racism & Ethnicity
- Gender Identity & Two-Spirited Awareness
- Wealth Disparity
- Climate Change
- Religion & Culture
- Power & Privilege

Outcomes:

- Develop critical thinking and problem-solving skills.
- Articulate thoughts and ideas.
- Become self- aware and self- directed learners.
- Understand and identify omission.
- Share ideas without being "wrong".
- Discover, create, and use new knowledge.
- Practice respectful disagreeing, compromising and negotiations.

CRITICAL THINKING BY DESIGN
